February 25, 2014

Kelowna Sunrise Rotarians and their families/guests held a fun filled afternoon in the snow on Sunday, February 16th at the Telemark Nordic Club in West Kelowna. While over 62 km of trails are available for snowshoeing at the Telemark, it is doubtful that the group of energetic snowshoers actually completed more than one or two kms.

Although service is the primary reason Rotarians are Rotarians, being a Rotarian is also a lot of fun. It provides opportunities for entertainment, the development of new friendships, for fellowship, and the means for the entire family to join in with a great group of wonderful and special people and families.
