There are over 300 million children in this world with no shoes and they want to help change that. Three years ago the Soles4Souls shoe drive was started by local shoe repair shop owner Jim Belshaw of Roy's Shoes collecting 45,000 pairs of shoes the first year. Since then the total is close to 250,000 pairs collected and distributed.

Soles4Souls in the US has been collecting since 2005 and have collected over 19 million pairs of shoes and distributed them in one of 125 different countries.
