

RCCSP Weekly Bulletin April 14th 2022
Volume Number 67, Issue Number 36

Editor: Sandy Dougall

Photography: Glen Godlonton

Videography: Steve Mason / Jamie Moorhouse

Welcome to the April 14th meeting of the Rotary Club of Calgary at Stampede Park. I am the Club's President, Craig Stokke

Dr. Williamson, I am excited to hear about the tremendous advances medical research, especially when you stop to think about some of the crazy medical practices in history. Now, I may be a bit young to remember the really "really" wacky medical practices of the past... like how my Grandpa could walk into a pharmacy and buy Heroin off the shelf to cure his cough. Yes, until 1914 that was really a thing. Then the medical experts figured "hey, we should put a prescription on that", which they did until 1924.

I clearly remember sitting in the doctors office or dental office beside the big ashtrays so patients could get their last puffs in while waiting for their appointments. So, that made me wonder about some of the other crazy historical medical practices. Rome's first official physician, Arcagthus, was given the nickname Carniflex, meaning executioner. As it turns out, Roman doctors were routinely hired by persons of high standing to kill other persons of high standing. One of the worst thing you could do when you're sick is to drain your body of all its blood, but for centuries, that's exactly what "doctors" did to their patients. Crazy as it sounds today, bloodletting made a lot of sense for over 2000 years. Arsenic is something most people associate with rat poison, but for a time in the 1800's, people happily consumed it as a form of a diet pill.

Alcoholism is one of the most serious diseases, afflicting millions of people every day, so it's no surprise people turn to unconventional methods to treat it. For many people in the 1960's (who either didn't want to, or were unable to attend meetings), there was always LSD. Funny enough, in 2012 doctors actually found it to be 59% effective.

Have you ever told someone to go blow smoke up their ass? Well, that was really a thing. I won't go into it here.

When radium was discovered, it was one of the biggest finds in the 19th century. Before the effects of radiation on human cells were fully understood, companies put radium in everything from toothpaste, chocolate, and water, pretty much everything meant for consumption. This continued well into the 1930s. Of course lead was a problem too.

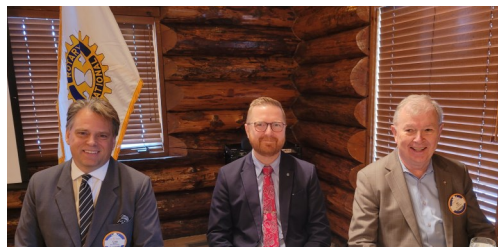

When you look up our medical history it's quite fascinating... and quite frankly, its surprising we actually survived as a species.

Please join me for the singing of O Canada followed by Rotary Grace.

HEAD TABLE: Michael Vandezande (Joined the Club in 2019), Walter Flores (Rotary in 2000), Bob Wiens (2001), PP Bill LeClair (1989), Dr. Tyler Williamson, Craig Stokke (2008)

GUESTS: Ernie Yaskowich looked after introducing the 9 guests today. **President Craig:** I would like to extend a huge welcome to everyone in person and on Zoom! Let's sing the **"Welcome Song"**

50/50 DRAW: Michel Zacharki: NOT AGAIN: Bryan Walton won \$112.00 for the second week in a row!

UKRAINE DISASTER RELIEF: If you are looking to support the Ukraine crisis, please speak with **Don Taylor or Jamie Moorhouse** and they can help you take advantage of the **Richardson's district matching grant.**

Videography: Steve Mason / Jamie Moorhouse

WORLD COMMUNITY SERVICE: Who has received this month's issue of Rotary magazine? There are two clubs from our District that are highlighted this month for the great work we are doing. Our Club was mentioned on page 45 with regards to a water filtration project that our Club is doing in Columbia. This phase of the project aims to provide filtration to 650 households (hundreds of other households have received filtration in earlier phases). Clean water is something we take for granted, but water can be deadly in many parts of the world. This project is a great example of how The Rotary Foundation, working with Global Affairs Canada and D5360 District Designated Funds can achieve great things. Thank you to Bob Wiens, Jamie Moorhouse and our World Community Service committee for the great work they have been doing over many years.

YOUTH EXCHANGE PROGRAMS: Walter Flores: With COVID, All of the Youth Programs had to be postponed and it is only now we can get started again. See the announcement in bulletin covering what is happening.

RED STRIPE REMOVAL: Luanne Whitmarsh removes Pat Neuman's stripe ... This was a fast removal for Pat. She has contributed so much since transferring to our club recently

HEALTH AND WELLNESS: Brenda McKinley is scheduled to be the contact for Health and Wellness for May.

George Adam recently moved into Long-term Care at Millrise Seniors Village after a three-month stay at Rockyview Hospital. Son Wayne Adam requests that we give George time to adjust to his new home and that inquiries be directed through Wayne.

We wish **Darlene Whitmore** a full recovery from a recent fall that she had last week. She is recovering at home and hopes to back at our meetings soon.

It's good to know that **Roger Jarvis** is venturing out ... he recently visited friend David Read to collect some of Dave's tomato plants.

Gui Salazar has been in hospital for several weeks suffering from Covid. He is slowly recovering but has been having trouble walking (something the doctors are surprised at as that is not a normal reaction from Covid). Gui's wife, Kate, is also suffering from Covid and is in isolation at home.

Toby Oswald Felker is also in isolation from Covid but is slowly recovering after a very nasty bout of illness.

SERGEANT-AT-ARMS: Keith Davis continued in his ongoing effort to educate member of our club on various matters (at their expense of course). This time he chose the subject of Easter and asked some provocative questions: The Easter Bunny has become a key figure for children at Easter. But have you ever asked the question "Why?" Why not a gopher, or a cow, or even a skunk?

Q: When did rabbits become associated with Easter, and why? It's unclear but it's probably related to the fact that rabbits are known to be prolific (that means they "do it" a lot) and are an ancient symbol of fertility and new life.

Q: What do you call a gathering of rabbits, such as might occur on the eve of Easter Sunday? A "fluffle", a "colony" or a "herd" if the gathering is large enough.

Q: Where do rabbits live? No, Bill Sumner, Calgary is not an answer. "warren".

Q: We also see chickens – primarily young chickens or chicks – associated with Easter. What do you call a gathering of chickens? "peep", a "flock" or a "brood".

Q: When was Easter first celebrated? In the 2nd Century AD, although the earliest Christians may have celebrated the resurrection.

Q: Why do we celebrate with Easter Eggs? The egg became a symbol of the resurrection, as the egg Represented new life emerging from the shell.

Q: Why do many societies worldwide colour Easter eggs? Church leaders originally banned eating eggs laid during the Holy Week. So those eggs were saved, and coloured brightly, then given to children as gifts. Many of those eggs were coloured red to signify the blood shed on the cross, and the colouring of Easter Eggs remains to this day.

Q: Is Easter purely a Christian rite? Not necessarily. In fact, Easter is closely linked time-wise to Passover and to the Exodus from Egypt, as well as to Ramadan, and even to some pagan rituals that took place before the birth of Christ.

Rotary
Club of Calgary at Stampede Park

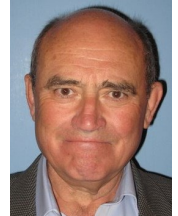

NEXT WEEK'S MEETING: We are at the **BLUE ROOM** to honour Member **Don Bacon** with a Rotary Profile. This should be yet another great meeting.

If you have a friend or Rotarian from another club who may be interested please consider inviting them to our meeting.

Please remember to register online for a meal by tomorrow am at 9:00 am. We will have sandwiches available until they are sold out. Thank you

LUNCH AT THE BLUE ROOM: Rotary Profile: Don Bacon
SEE MAP ON PAGE 7

Please go to: www.rotarystampedepark.com and register in advance

contact Kathyann Reginato if you would like a username and password to do so

Final words: As always, I finish by encouraging you to ask yourself:

What do you need from our Rotary Club this Week?

What does our Club and Community need from you this week?

And with that, our meeting is adjourned
Thank you for coming. Have a great week!

MEETING LINK: <https://youtu.be/G4YOXkbPV6s>

DR. TYLER WILLIAMSON: CENTRE FOR HEALTH INFORMATICS UPDATE

SPEAKER INTRODUCTION: Bill LeClair: Prior to more formally re-introducing Dr. Tyler Williamson to this Club let me give you a little background on how we met. When I was President, I received an email from Stephanie Ng at UofC asking if our Club members wanted to visit and see the Neuro Arm in Action. We had donated money to UofC for it. Fast forward a couple of years when I was on the Large Grants Committee chaired by Myrna Dube-Thompson. We were discussing possibilities and Benno Nigg suggested UofC. I remembered Stephanie Ng and called her but ended up speaking with Andrea Ostergard. I told her we were looking for a program but something leading edge. That led to Tyler, an application from UofC and a \$100,000 grant from our Club.

Tyler Williamson is the Acting Director of the Centre for Health Informatics, formerly the Associate Director. In addition, he is an Associate Professor of Biostatistics in the Department of Community Health Sciences as well as the Director of the Health Data Science and Biostatistics Diploma Program at the University of Calgary. He is a member of the O'Brien Institute of Public Health and the Alberta Children's Hospital Research Institute. He's earned a BSC Statistics at UofC '05, PhD Biostatistics UofC '11 and received NAPCRG New Investigator Award in 2018 for outstanding work as new primary care investigator within the North American Primary Care Research Group (largest primary care research organization in the world).

His research interests include health data integration (combining electronic medical record & health administrative data), chronic disease surveillance & research using electronic medical record and health administrative data, chronic disease surveillance and research using electronic medical record data, and non-canonical link functions for binomial generalized linear models. He is nationally & internationally recognized in the use of electronic medical record data for public health surveillance, health services research, & practice quality improvement working with organizations such as the Public Health Agency of Canada and Health Canada's Marketed Health Products Directorate.

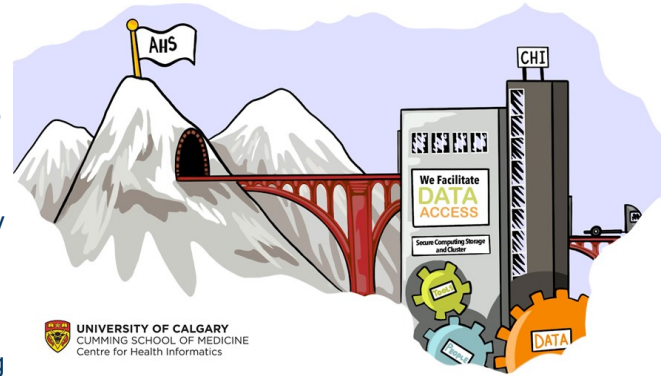

SPEAKER: Tyler Williamson is the Acting Director of the Centre for Health Informatics, formerly the Associate Director. In March of 2020 our club made a \$100,000 donation to this centre. Little did any of us know what was going to happen. Covid hit and the Centre was able to spring into action gathering data and initiating projects that became invaluable in understanding what was happening.

DR. TYLER WILLIAMSON: CENTRE FOR HEALTH INFORMATICS UPDATE

Dr. Williamson's presentation is available by watching the online meeting link and you will need to take a look to appreciate what our funding has started. He indicated that some \$2,000,000 in funding followed our seed money and they have developed numerous programs that we see reported continually. One in particular analyzing Wastewater is now a standard and while we see it reported for Calgary and Edmonton it is now being used in many other local facilities, cities, towns and First Nations.

Dr. Williamson is now connected to a World Class Project called Serotracker along with supporting five or six young investigators at CHI with their projects.

Tyler closed by saying that your generous gift has had a profound impact on the Cumming School of Medicine and the Centre for Health Informatics. Thank you.

SPEAKER THANKS: Bryan Walton thanked Dr. Williamson for attending.

Here is a quote from Myrna Dube-Thompson as well:

"We felt like we owned a wee piece of your innovative work and we're honoured to be associated with it. I also want to thank Dr. Williamson for stewarding our donation by reaching out to update us on the good work".

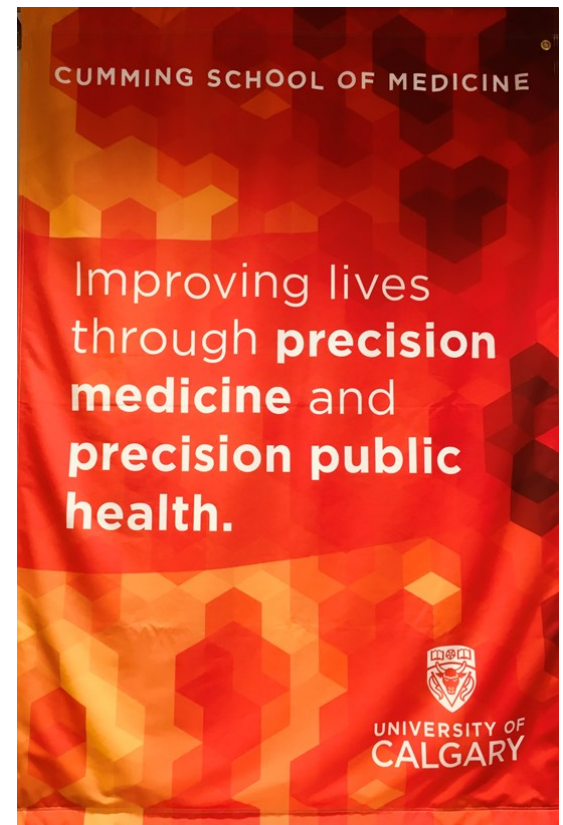

In Closing: President Stokke: Dr Williamson, thank you for taking the time to visit us today. It is wonderful to hear about all the advances you and your team are making. In recognition of your time today, our Club will make a \$100 donation to the Calgary Rotary Clubs Foundation.

This gift will help support our community. Thank you.

**PLEASE NOTE: THE APRIL 21ST MEETING IS AT THE
BLUE ROOM. SEE MAP BELOW**

DISTRICT 5360 NEWS: HUMANITARIAN SUPPORT IN UKRAINE

Yesterday, I received this email from Pat Neuman from the Rotary Club of Calgary at Stampede Park. I felt it was very important so I'm sending it District wide:

Warsaw Rotary -Humanitarian Support in Ukraine - Russia War - Zoom meeting 11am MST Thursday April 14th

Rotary Club of San Antonio - We will meet with the Warsaw Wilanów Poland English-Speaking Club on Thursday April 14 at 11am MST to discuss their club's significant support to Humanitarian Operations in the *Ukrainian-Russia War*.

As Warsaw is English-Speaking Club, and as they border the Ukraine, they are uniquely posed to act as the hub for international funds and aid pouring into the Poland for distribution to the Ukraine. The club is supporting a hospital in L'viv, their Rotaract students are assisting with transportation and logistics of items into Ukraine, they are renting/supplying a hostel housing refugees, and they serve as the conduit for Rotary International funds contributed to assist the Ukraine.

I hope you — and anyone you desire to invite — will join us for what promises to be a fascinating and important discussion offered by Rotarians actively supporting Humanitarian Operations in the war.

<https://us02web.zoom.us/j/86143317142?pwd=RUI0bkR6Q1ZocVBWMzRDSEhYRzJHZz09>

Meeting ID: 861 4331 7142
Passcode: 083282

Hope you can make it. If not there will be a recording and I will share it when it's available.

Thank you for all you do for Rotary,

Martin

Att : Mr. Jamie Moorhouse
WCS Committee Members

Dear all,

We are very grateful for your incredible donation of CAD10,300 (USD8,081) to help us buy laptops computers for our latest 14 students in Cambodia. We purchased the laptops already in February as we had the promise of your donation and the students are thrilled to have such a valuable tool for their university studies.

The students started computer lessons right away when they got their laptops and they use them daily for their schoolwork.

Attached please find a few photos from the handover of laptops.

Thank you again for your generosity, we appreciate it very much!

Yours truly,

Annette Jensen

WORLD COMMUNITY SERVICE NEWS

SEE PAGE 45 (shown here) of the **April 2022 Rotary Magazine** article.

Two clubs from our District have been highlighted.

These are great examples of how The Rotary Foundation working with Global Affairs Canada and D5360 DDF can achieve great things (in my opinion).

Submitted by

Bob Wiens on behalf of the WCS Committee

BY THE NUMBERS

73

Global grants that focused on health, totaling \$7,109,037

41

Global grants that focused on education, totaling \$5,907,591

17

Global grants that focused on economic development, totaling \$2,210,395

72

Across those three categories, grants that focused on children

150,000

Approximate number of children who benefited from the grants

27%

Portion of health grants that focused on improving water sources and sanitation facilities

11

Countries that gained access to potable water and sanitation — improvements that affected 625,000 people

22

Grants that focused on prenatal care and maternal health; 14 of the projects were implemented in eight countries in Africa

2,600

Women who received training about loans that was aimed at expanding their skill sets, abilities, and economic statuses; projects, funded by 22 education and economic development grants, were implemented in 12 countries, with the most — nine — occurring in Honduras

Tolima Phase 4 Agua Segura-Nuevo Ibagué

SPONSORS: ROTARY CLUB OF CALGARY AT STAMPEDE PARK, ALBERTA, AND NUEVO IBAGUÉ, COLOMBIA

This two-year endeavor, one phase of an ongoing project aimed at disease prevention and improving overall community health, is supplying biosand water-filtration systems that produce clean, drinkable water to thousands of local residents. This phase of the project aims to supply filtration systems to 650 households (hundreds of other households received filtration systems in earlier phases).

The project includes three home visits: the filter installation and two follow-up visits for filter inspection. The project also provides training on system maintenance, education related to good hygiene practices, and the administration of antiparasitic medications to participants when necessary. This three-tiered approach — filter installation, health and hygiene training, and medical intervention — should result in significantly fewer people suffering from the debilitating and often deadly impact of parasites.

FUNDING

GAC: \$16,000

Rotary clubs and districts: \$21,500

TRF: \$29,053

Total project funding: \$66,553

Rotary Club of Calgary at Stampede Park 2022 Kids at Heart Golf Classic Presented by

CHARLES GLEN

TOYOTA

Alberta's Celebration Destination

EXCITING NEWS!!! NEW FOCUS! NEW NAME! SAME GOAL! SAME PASSION!

NEW FOCUS: At last year's golf tournament, The Rotary Club of Calgary at Stampede Park announced the launch of the Rotary Kids at Heart Program. It began with a simple idea – addressing the issues that children face as they navigate through their school years, allowing them to focus on their learning priorities. It developed out of our Stay in School program which focused on ensuring kids can access higher education. That program has now met its funding objective. It was evident as we looked around at what was happening in our community and around the world that Kids needed us now more than ever. That gave us a golden opportunity to expand our scope and focus our fundraising efforts on helping more kids deal with the many issues they face every day. Rotary Kids at Heart will focus on:

- Kids who have nowhere to sleep at night
- Kids who are being bullied in person or taunted on social media
- Kids who are facing Family turmoil
- Kids who are trying to fit in
- Kids who go to school hungry

NEW NAME:

2022 ROTARY CLUB OF CALGARY AT STAMPEDE PARK KIDS AT HEART GOLF CLASSIC

They say that with change comes progress. Your golf tournament committee is moving forward to an exciting new chapter for our golf tournament. The new name, Rotary Club of Calgary at Stampede Park Kids at Heart Golf Classic encapsulates what our club is focusing on in our community, Kids, and clarifies our focus. At the same time, we welcome on board our new Presenting sponsor, **Charlesglen Toyota** who share our dream of making a real difference in kids' lives.

SAME GOAL/SAME PASSION: Kids will always be passion for and at the heart of everything we do at the Rotary Club of Calgary at Stampede Park. Our Rotary Kids at Heart program will invest in the lives of children and youth to create real, long-lasting change for kids, families, and our community. We will partner with amazing organizations whose mission it is to help provide children with an opportunity to be safe, to be fed, to be loved and supported, to learn and the ability to have a bright future.

"There can be no keener revelation of society's soul than how it treats it's children" - Nelson Mandela

2022 RCCSP KIDS AT HEART GOLF CLASSIC FUNDING RECIPIENTS

The Safe Haven Foundation- Haven's Way Program

"Helping give Calgary and Area homeless and at-risk girls their future back"

Havens Way provides a healthy loving family environment for homeless and at-risk girls between the ages of 14-24 who do not have child welfare status. Our donation will be critical to helping Havens Way continue their work with at risk girls. <https://www.safehavenfoundation.ca/>

Dare to Care- Mission:

"Equipping schools (students, parents, teachers) with the skills and courage to prevent bullying so all children can thrive in life, learning and play" 150,000 children miss school each day because of Bullying. Our donation will bring this amazing program to 50 additional Calgary schools next year.

<https://www.daretocare.ca/>

PREP Society for individuals with Down Syndrome

"Dedicated to inclusion of individuals with Down Syndrome in home, school and community life"- "I do Belong" PREP Provides teens age 12-18 with the critical skills they need to successfully transition into adulthood. Our donation will add an 4th Teen program class and increase staffing hours of the teaching and Therapeutic team time to develop critical teaching resources. <https://prepprogram.ca/>

Join us this year at THE ROTARY CLUB OF CALGARY AT STAMPEDE PARK KIDS AT HEART GOLF CLASSIC to really make a difference!! JUST 111 DAYS AWAY!!!

ROTARY FUNDRAISER: APRIL 24TH IRONWOOD STAGE AND GRILL

Dear Rotary friends,

We respectfully request that you circulate the message and attached posters below to club members.

Message:

1. You helped us by becoming a supporting club for both our upcoming Belize and Pakistan community empowerment projects, for which we couldn't be more grateful.
2. However, Rotary funding is never enough for projects that are long-term. There is always an urgent need for sustaining projects between global grants, and often for supporting additional costs. For example, in Pakistan, inflation is running at more than 200%, and everything costs at least double what we budgeted a few years ago.
3. So we need to do fundraising on a continuous basis.
4. Our key strategy is musical fundraisers. Our next one is **Sunday afternoon, April 24, from 2 PM to 5 PM at the Ironwood Stage and Grill. Tickets are \$25.** The event poster is attached and the Facebook link is [Himat Fundraiser, 2022](#).
5. **We are asking for your help in bringing people to the event, yourself included,** or in donating classy items for our silent auction.

Thank you so much for your help. Please reach out to me if you need more information.

Michael
International Committee Chair
telephone 403-852-8283; email anyone@fourworlds.ca

Four Worlds Centre for Development Learning
Box 395
Cochrane, AB T4C 1A6
Phone: 403-932-0882
Email: anyone@fourworlds.ca

There will no longer be a Zoom Meeting Option as of July 1st 2022

Please discuss with President Craig if you wish to discuss this further.

Rotarians: Do you have new additions to your FAMILY? Children? Grand Children or Great Grand Children?

Each year District 5360 at the District Conference part of the program includes a Celebration of Life where we recognize those members of Rotary who have passed away during this last year. Also; they honour new additions to the families of Rotarians.

Have you had new additions to your family, children, grand children or great grandchildren? If so, please send the information to Terry Allen who is gathering this information for inclusion in the program with details including their name, relationship, date of birth and a picture. This must be received **no later than April 15th**. Send all information by email to Terry at tgallen1@telus.net.

PARTNERS in PRINT

REMINDER: If you haven't registered for the "Spring Luncheon" on April 22nd and want to attend please let Karen Grant know by email: lkgrant@shaw.ca or call: (403)-239-8987. Karen will need to know if you are paying by cheque or at the door and your choice of either "Chicken" or "Salmon" for your main course. Final numbers need to be submitted to the Glencoe by the morning of April 18th so if you would like to join us please let Karen know
