LCol Wickware began his military career in 1976, enrolling at 17 years of age as a Private. After serving at CFB Kingston and Ottawa, in 1979 he was selected under the Officer Cadet Training Plan (Men) to commence Armour Officer Classification Training. Upon completion he served on several tours with the 8th Canadian Hussars (Princess Louise's) in the Special Service Force CFB Petawawa and 4 CMBG Lahr.

After his first Regimental tour he was the Regular Support Staff Officer with the British Columbia Regiment (Duke of Connaught's Own) in Vancouver in 1983/1984, returning to his Regiment and subsequent rotation to Germany in 1986.

After 2 years in Europe LCol Wickware returned to Canada where he served as 2IC Tactics Sqn, Adjutant and OC Training Support Sqn, at the Royal Canadian Armoured Corps School, CFB Gagetown. He was posted to the Lord Strathcona's Horse (Royal Canadians) in 1993 and was appointed as Officer Commanding Reconnaissance Squadron.

Upon completion of his Regimental Tour in Calgary he was assigned to Land Force Western Area Headquarters in Edmonton. He retired in 1996. He is a graduate of the Canadian Land Forces Command and Staff College and the Canadian Forces Language School.

Since his retirement, he has completed a variety of projects including commercial real estate acquisition and development, software development for the oil & gas industry and acquisition and ongoing operations of internet startup companies. LCol Wickware has worked as the Northern Region Field Security Officer for the United Nations World Food Programme in Mazar e Sharif, Afghanistan. With funding from the European Union he set up a security advisory program for 12 international non-government organizations operating in Quetta, Pakistan and Kandahar Province, Afghanistan in 2004.

Once the security program was successfully operating, he became the Chief Security Officer for the United Nations in Cyprus.

TRANSPORTATION: Contact Bonar Irving at bonar@shaw.ca or: 403 254 8476 if you know of anyone that may need a ride to meetings

Upon return to Canada in 2007 he rejoined a start up project here in Calgary, which is now ComplyWorks Ltd. Having started with a PowerPoint presentation, the company now has offices in Calgary, Toronto, Houston and Pretoria, South Africa. With his partners they created the Safety in Schools Foundation of Canada, a non-profit foundation providing industry recognized and accredited online safety training to high school students, sponsored by industry leaders in order to increase young workers' safety knowledge before they enter the workforce. As Managing Director, LCol Wickware has grown this project to where it has provided over 21,000 safety courses to students in over 185 high schools at no cost to the government or the students.

He is married to Patricia Murphy, who joined the CF in Vancouver with the British Columbia Regiment (Duke of Connaught's Own). Maj Murphy joined the King's Own Calgary Regiment in 1993. Carrying on a family tradition, Maj Murphy is a lawyer by profession and her father, BGen Bill Murphy commanded the 1st Canadian Armoured Brigade in Italy and NW Europe during WW II, the Brigade under which this Regiment fought from Sicily through Italy and into NW Europe until the end of the war.

Notes from Bulletin Editor:

- LCol Wickware advised us that Veterans and Enemies have changed
- The First World War was to be the war that was to end all wars, that did not happen
- Veteran's ages range from mid 20's to mid 90's
- 1942 took tanks on an amphibious tour to Europe and that was a first to Normandy and Italy
- 1947-48 Korea and the Cold War began
- LCol. Wickware talked about the start of the United Nations and the new role of military in a peace keeping role. Now it more of a peace keeping support, and yet still be able to defend against threats ie: Cypress: we have been there since 1963, we need better definitions as to why we are still there and what needs to be accomplished
- Haiti: what are the conditions of success that should be determined before we send troops
- Bosnia: We learned not to give candies as then they would run towards the tanks and many of them got run over, you need separate people to befriend the people different than soldiers, there needs to be a separation
- Serbia: Climate conditions need to create policy change,. Serbians did not receive fuel, then it was realized that they could not pick up their garbage so it rotted in the streets creating a stench as well as a rodent and disease problem
- Most people just want a better life for their children so it is important to have security in order to create security
- There are many changes now in the middle east. You are not just keeping two parties a part but many factions are fighting each other and you have to be aware of all of the different ideals and parties involved
- Is it better to use troops on the ground or use technology to deliver death and destruction
- There needs to be a diplomatic solution to what is happening and define the criteria for success, for security tasks, peace keeping support and security.

Brian Guichon thanked the speaker, for him giving us a better understanding of our military and their role in the world.

Thank you for your years of service and speech and your service to the country
