Gena Rotstein, Ellen Humphrey and President LeClair

Gena Rotstein introduced our featured speaker **Ellen Humphrey**. Gena had the opportunity last spring to have a "Hard Hat Tour" of the new public library and is pleased to welcome to our podium Ellen who is the President of the Calgary Public Library Foundation.

Ellen Humphrey is passionate about literacy.

Ellen began her presentation with a photo of Calgary's original library building which still stands in Memorial Park.

She informed us about the fund raising campaign to build this structure and how the Carnegie Foundation assisted with the funding.

The Carnegie Foundation assisted many cities across North America to build their libraries.

The site of our new library is immediately behind the Calgary Municipal Building and partners with the National Music Center as a vital part of the East Village development.

The Calgary Library Foundation is now housed in the older Hillier Building and which is adjacent the new building and close to a tunnel which will link the downtown to the East Village.

The new library is about LIGHT – it's transparent, translucent and Opaque.

Ellen referred us back to Calgary's original library - there are very few window and the walls held the bookshelves which were essential to the functioning of the library. Our new building will be very open, easy to navigate in and will have several areas with wood features.

There will be meeting rooms whose windows open onto 3rd street – people can see into the building and actually see "what's going on!" There is a 340 seat performing arts hall that can also be viewed from the street. The "pointy" area at the north end of the building is going to be a teen hangout area.

The TD Great Reading Room is an area where silence will be observed to allow people to "think, write and compose."

Back to Memorial Park and a photo of a room of children sitting in high uncomfortable chairs and in very neat rows.

This was contrasted with the new contemporary focus of providing people friendly areas and programs for young people and their parents all in a very relaxed and informal environment.

All of the libraries in the city have been renovated to conform with the standards that will be evident with the opening of the new building.

Ellen provided us with an overview of the Library Foundation's fund raising activities. They have raised 97% of their objective. If you wish to contribute please contact the foundation.

There is a fund raiser that is similar to the "Bricks" in Olympic Plaza.

Contributor names will be inscribed around the windows of the new building.

John Fitzsimmons thanked Ellen for her inspiring talk today and encouraged everyone to visit the new location. **President Bill LeClair** advised Ellen that the Rotary Club of Calgary South would be donating \$100.00 on behalf of Ellen and the Calgary Public Library to our own Stay In School Scholarship Program

President Bill LeClair welcomed everyone to the Rotary Club of Calgary South meeting today. He invited everyone to join with Lisa Fernandes and our head table in the singing of O Canada, followed by Rotary Grace.

Today in History:

- 1970: in Montreal, James Cross was kidnapped initiating the FLQ Crisis in Canada
- 1973: Elton John released his song, Goodbye Yellow Brick Road

His lawyer joke for the day concerned the testimony of a witness asked to describe the appearance of another individual. He said that the individual was about medium height and had a beard. The lawyer then asked, "was this individual male or female?" The witness replied, "Unless the circus was in town I'm going with male. **President Bill** wasn't too impressed with his fellow member of the legal profession!

Then at Dream Home we show the charities we have contributed to and the number of community members affected. "

The question received a very positive response from the members.

Thank you, Past President Ken Farn

Greetings fellow Rotarians,

On behalf of **Craig Stokke (Rotary Club of Calgary South)** and **PDG Mark Starratt (Rotary Club of Calgary)**, the District 5360 Leadership Team and the Rotary International Convention bid team, I am pleased to announce that the **City of Calgary and Rotary District 5360 have been selected to host the Rotary International Convention in 2025.**

In 1996, Rotary descended on Calgary for what would become a very memorable convention. With an attendance of 24,963 Rotarians and guests from 126 countries, the 87th Annual Convention of Rotary International set a western hemisphere record that truly embodied the theme - Calgary '96: Rotary Family Roundup. Even today, the 1996 Rotary International Convention is cherished in the memory of many Rotarians worldwide and so we are excited to once again welcome the world back to Calgary in 2025.

Calgary is known for creating lasting positive memories and the 2025 Rotary International Convention will be no exception. In June 2025 we'll build on the strengths of the 1996 Convention while creating a lasting legacy of our own.

Craig & Mark's vision sets ambitious goals. We'll leverage the next Calgary Rotary International Convention to bring Rotary to everyday Calgarians (non-Rotarians) in a way that has never been done before. In doing so, the Calgary RI Convention will be transformational for Rotary throughout District 5360. Then, we'll show future host cities how to do the same.

Specifically, we will build Rotary in our community by;

- Launching an extensive campaign to raise awareness of the convention and introduce Rotary to everyday Calgarians
- Promoting membership by inviting Rotarians and non-Rotarians to share personal experiences of what Rotary means to them at special pre-convention festivals
- Setting goals and an action plan to build membership and diversity in our District. We are confident we can achieve 20% membership growth for our District by the convention year
- Establishing a significant Rotary International Convention Legacy Fund that creates lasting impact throughout our District
Providing opportunities for local citizens and visiting Rotarians to participate in hands-on projects designed to make the Calgary convention memorable for the next generation
- Delivering, in partnership with local schools, leadership curriculum that will expose Rotary, Rotary values, and Rotary programs to the youth of our communities
- Creating a District wide stay-in school scholarship program (through our Rotary International Convention legacy fund)
Developing an Internet-based web-portal where youth can share fundraising ideas, community service initiatives and more for Youth Exchange, Rotaract, Interact, youth organizations and schools
Having the foresight to purposefully be aware of our actions leading up to the convention so that Calgary can provide a blueprint of success for all future convention host cities

As you can see, we are not looking to simply host 30,000 Rotarians and guests, we are looking for an opportunity to change Rotary forever, throughout our city and across our District. In doing so, Calgary will set a new standard for host cities, completely aligned with RI values and goals.

So what's next? Well, not much in the short term. There's no doubt we have Rotarians throughout our district (and beyond) who will be anxious to jump in and get involved however, it's important to remember that the convention is still seven and a half years away. Over the next several months our district will begin working closely with RI to begin implementing the vision outlined in our bid. As the year's progress and we get closer to the convention, sub-committees and teams will be created and opportunities will become abundantly available for Rotarians through the entire district to become involved.

We look forward to the next steps of this very exiting journey and we will do our best to keep our members in the loop as things progress. Please direct any immediate questions or media inquiries you may have to Craig or Mark. I'm so excited; I hope you are as well.

Rick Istead: District 5360 Governor 2017-2018 (Rotary Club of Calgary Fish Creek Park)

Keith Davis:

You will hear us talking a lot about CRCF this month, as this is our campaign month are we are trying to generate as many donations as possible to this fund. Let me tell you a little bit about CRCF. In a nutshell: The Foundation was established a number of years ago to provide an assured source of funds to the Rotary clubs in Calgary that donate, through their members, to the fund. Each club has its own accounts within CRCF and total contributions made by the members of this Club to CRCF are added to our account. Each year, interest earned through the investment of those funds is paid to our club. For the year ended February 20th, 2017 our club earned \$136,000 in interest, which went into our budget.

At present, RCCS has more than \$5.1 million invested in CRCF, and that number was only recently achieved through the will of our former, long-time member Mario Stella. Mario provided an endowment of just under \$2 million to our CRCF fund – an amazing feat of generosity and a huge financial step forward for our club. Speaking in general terms that \$5 million account at CRCF will provide approximately \$250,000 to the club year after year, a huge source of income to allow us to do even more good in our community. So what does this mean? Any growth in our CRCF account means that much more income to the club to continue our charitable projects. a few hundred dollars, when compounded over a few years, adds a surprising amount to our income. And it does it year, after year, after year.

The CRCF has assets of almost \$50 million, an astounding amount of money donated by Rotarians in almost all clubs across the city over the years. That is probably more money even President Bill has. Or, for that matter, probably even more than the cash reserves of P.E.I. his ancestral home.

It's almost twice as much as the \$25 million that Mayor Nenshi and council blew on those traffic-blocking bicycle lanes, and 50 times as much as was wasted on the Great Blue Circle art installation on Deerfoot Trail and the so-called art installation near Canada Olympic Park that is reminiscent of Aboriginal burial platforms. So how can you contribute to CRCF? Just contact any member of the CRCF Committee and arrangements can be made to handle cheques, cash, credit cards and a host of other methods. You can also make arrangements in your Will, as Mario did, or you could purchase a life insurance policy with the CRCF as the beneficiary. The ways to contribute are many and no amount is too small, or too large.

The CRCF is an insurance policy for our club should any problems occur with our traditional sources of income. Or, it adds another \$250,000 a year or so to the monies we already earn to give us an even bigger footprint in the effort to improve the lives of Calgarians less fortunate than we are.

As you may know RI President Ian Riseley is holding six peacebuilding conferences around the world.

On **February 9-11, 2018 in Vancouver, BC** the presidential peacebuilding conference will examine sustainable global and local environmental practices, and their contributions to peacebuilding and peacemaking.

Environmental Sustainability, and Peace
10 February 2018 — Vancouver, Canada

Participants will discuss the impact of environmental issues on health, fresh air, clean water, vegetation, and food production – and how improved environmental conditions are a fundamental condition of building peace within communities.

The conference will bring together community leaders, youth, and representatives from the public, private, and government sectors. Attendees also can participate in a hands-on service project the morning after the conference.

There will be a focus on how Rotary clubs can involve their local community in sustainable projects and peacebuilding. The conference website has a list of keynote speakers, link to book a hotel room, draft program and a link to the registration. Please visit: www.EnvironmentandPeace.com

Rotarians from the US, Canada and around the world will come together at the Hyatt Regency in Vancouver for this conference. Will your club be represented?
