Irene Jumbo: Leaving a Legacy

Dana Hunter introduced Irene Jumbo.

Irene is a Leadership Coach, prior to that she was in the Oil & Gas Industry. Irene is enjoying her position as a Leadership Coach, and Leaving a Legacy.

Irene talked about what great examples Rotarians are regarding leadership and building a legacy. Rotarians invest in youth who become Rotarians who invest in youth and so on. Her job focuses on Dr. C. Maxwell's teaching and his book: *21 Irrefutable Laws of Leadership*. The book is in 47 languages.

Make Sure You Pass the Baton: No matter how well you lead, if you don't make sure you pass the baton, you will not leave the legacy you desire.

Our ability as leaders will not be measured by the buildings we build, or institutions we established. We will be judged by how well the people we invested in carried on after we are gone.

Some facts: 50% of CEO's had a C average in college. 65% US Senators were in the bottom of their class. 75% US Presidents were in the bottom of their class. 50% of millionaires never finished college.

Remember that your legacy is based on people not things. Too often leaders put their energy in things.... Make sure you pass on the baton – know when it time for you to leave. Legacy comes when leaders inspire others to be leaders without the leader.

Jim Burns thanked Irene for her positive speech today. He said that he has passed the baton a couple of times, but some days can be tough. Jim said that it is great to see the success that others are enjoying. It is important for all people to plan for succession

President Al presented Irene with a certificate of eye sight in honor of her talk today.

Irene spoke of the 4 focuses:

Know the Legacy You Want to Leave: most people simply accept their lives, they don't lead them. people need to be proactive about how they live, and that is especially true for leaders. Someday people will summarize your life in a single sentence. Pick your sentence now.

Live the Legacy You Want to Leave: To have any credibility as a leader, you must live what you say you believe. If you want to create a legacy, you need to live it first.

Choose Who Will Carry on Your Legacy: A legacy lives on in people, not things. Too often leaders put their energy into organizations, buildings or other lifeless objects. But only people live on after we are gone. Everything else is temporary.

Hannah's (2nd Last) Happenings #46

My last week in Canada

It was a pleasure to be the guest speaker at the Rotary meeting last week. I could not even find the right words to express my emotions and feelings. I knew I would be doing a presentation at the end of my exchange, but I never thought it would be so hard to put a whole year into 20 minutes. I tried my best and I hope I shared my experiences here in Canada to you fully. After the meeting I met Emilie who went to Austria on exchange last year and Erna who will head off for her exchange in Austria next week. We went to the German bakery and talked lots about Austria! Friday morning I did one of my last goals in Canada. One of my best friends from school and I went to Callaway park. It was not as exciting as Stampede but we had a great time and went on many rides. We laughed in the rollercoaster, were pretty scared in the haunted house and we enjoyed eating cotton candy. Saturday afternoon I spent with my 2nd host family (The Farn's). I had the chance to see their son, daughter in law and grandson again and say goodbye to them. I also went in my room at their house for the last time. Being in the empty room you've spent so much time in, is a very weird feeling. In the evening the Farns, the Bricks and the Jakubec's took me out for dinner. We definitely had a great time and they all laughed at me when I, the biggest dessert freak couldn't finish my chocolate mousse. It was delicious but very rich. Sunday morning Marianne Jost made another dream come true for me. She took me out to the Kananaskis. I was able to do a helicopter flight in the Rocky Mountains. I had an amazing view. The past year I have driven through the Rockies so many time and I did several hikes but it was for sure another adventure and a special feeling to see all the mountains from above. After some great lunch back the Jost's house, I headed back to Calgary where I

spent the rest of the day with my 3rd host family – the MacLachlan's. Judy's daughters and some friends were there too. We had a nice BBQ. I had many great times and special moments with Judy and her daughters and it was definitely hard to say goodbye to them.

Monday morning I went for coffee with Tony Ng and afterwards I had breakfast with the Boman's. On my 2nd day in Canada Mark took me to an amazing view point on Calgary. After we finished breakfast Mark & Carole took me there again. At both visits we took pictures. It's amazing to see the change. I have changed a lot and it's hard to believe that there are just 11 months between those 2 pictures. Monday night I had my last dinner with my current host family in Calgary – the Flegels. All their family joined us and it was a perfect last dinner. I enjoyed Arlene's cooking for the last time and I ate a lot of sweet potatoes because I don't think we have them in Austria. Right now, Tuesday 1.30PM, I am sitting in a rollercoaster of emotions. My plane will depart in 5 hours and I have to say goodbye to the people who made my year in Canada the most special year I have ever had. In less than 20 hours I will see my family and friends in Austria again and can finally hug them after 11 month and 9 days. It's hard for me to write this right now as I am almost crying again, so I will stop here. I will write my very last happenings next week when I'm back in Austria ... *Hannah*

Rotary Partners Hiking — Boom Lake

Boom Lake was the destination July 23rd for our group of nine hikers. The sun was shining and the temperature was not too hot. The flowers were incredible. I have included some of the beautiful and intricate examples of Tall White Bog Orchid which has a delicate smell, Colorado Columbine with its striking pink and yellow colours and Foamflower which is small and delicate. Boom Lake has the glaciated spires of Mount Quadra and Bident Mountain at its far end and Boom mountain rises above the South shore. It was an ideal lunch spot by the lake in the sunshine. The consensus about our lunchtime visitor was that he is a chipmunk because of his stripes. A wolverine crossed our path but unfortunately I did not get a good picture of it. A wooden boardwalk covered the wet portion of the bog and kept our feet dry, though there were many patches on the trail that were wet. On our way to the ice cream reward we were able to view the resident Osprey, poised on the bridge girder, with her new nest of fledglings.

ANNOUNCEMENTS

Dear Friends:

Thank you for supporting me in the past for Multiple Miles for Myeloma. This year's race will be July 26th at North Glenmore Park 9:00 a.m. To register please contact me directly (due to late timing) or go to the Running Room Site

and register under the team name of "Strong As A Brick". I hope you can join me again this year. This year is particularly important to me as Paul has been diagnosed with a very similar disease to Myeloma called Waldenstrom's; it is also a bone marrow cancer or as they classify it, a blood cancer. There is no run or support group for him but the support group for Myeloma has adopted him into their midst! You will receive shirts and a package on July 24, 25 which can be picked up at the Glenmore Running Room location. I have a few shirts with "strong as a Brick" on them and will bring them to the park as well as a banner. If you have a shirt at home please wear it. The shirts & banner were donated by Murray & Arlene for my first run two years ago. I recommend that we meet at the park around 8:30, 8:45. Again thank you for your support

⇒ Audrey Pearce fell and has broken her hip she is in the Rocky view hospital at the moment. The Partners wish you a speedy recovery!
