

The Daffodil Project

A million bulbs in ten years 2015 to 2025

When the snow and ice of winter finally give way to the warmth of spring there is an awful lot of grunge everywhere. One of the earliest flowering bulbs, the daffodil, could turn spring into a celebration - a symbol of life after winter.

A million golden daffodil blooms will dance and sway in the breeze along the Trans-Canada Highway from Redcliff to Dunmore.

We are able to buy bulbs in bulk through our local garden centres for about 30 cents each. They're planted once in the fall and then reward with a golden flower every spring thereafter.

- Every cent donated for bulbs is used for that purpose. All other expenses are covered by separate donations of time, product or service.
- We are looking for businesses, organisations, groups and individuals to sponsor the purchase of bulbs. Money for bulbs can be deposited in a trust account at any ATB Financial bank quoting this account number: 07329-00410789600
- You can help plant bulbs from mid September to end of October. Send us an email and we will keep you informed about planting dates.
- We are still looking for committee members who'd like to be involved in fundraising, organising planting events, keeping track of the bulbs that are planted, community engagement, special projects, and more.
