## *About Our Bakery*

*It is our intent to create every item in our bakery with a healthy, wholesome attitude. Toward that end, of all of our baked goods (except the white bread) have at least 10% whole wheat flour. We only use butter, olive oil or canola (no margarine or shortening), pure vanilla extract and pure chocolate chips in our recipes. Everything is made from scratch without adding any preservatives.*

*We bake items fresh every day. If they don't sell by the end of the day, we pop them into the freezer.*
