This Week's Program Highlights

Prelude - Larry Neely

Chair - Walt Pawlovich

Desk - Jim Blackburn

O Canada and Rotary Grace - Betty Ann Arscott plus *Put on a Happy Face*

Make-ups - (Note: You will only be credited with a make-up if you record it on the make-up sheet.)

Visitors - Greeter Candace Odishaw welcomed:

- Guest speaker Jenna Curson;
- Prospective member Glenn Hunter.

Program - Jenna Curson - Loraas Disposal Services

Betty Ann Arscott introduced Jenna Curson, community relations coordinator for Loraas Disposal Services. Jenna gave us lots of useful information about how to best use the single stream recycling program operated by Loraas under contract with the City. Below is a summary. For more information visit <https://www.loraas.ca/>.

Loraas Recycle accepts five main recyclable materials including:

Carboard

- *Make sure to flatten your cardboard and place it into your bin so that the lid is not ajar. Do not rip into small pieces. We accept 2ft x 2ft pieces. Large cardboard can be taken to our bin depot at 1902 1st Avenue North, Saskatoon that is open 24/7 hours.*

Mixed Paper

- *Place shredded paper into a clear or clear blue bag; do not use a black bag please.*
- *"If you can rip it, you can recycle it!"*

Plastics #1 to #7 with a Recycle Symbol

- *Make sure to bag your plastic #4 grocery bags and film together into one bag.*
- *Please ensure you remove all caps and lids without a recycling #1 to #7 symbol.*

Household Glass **City of Saskatoon Program only******

- *Please only include food-grade glass such as beverage bottles and glass food containers.*

Household Aluminum and Tin

- *For tin can lids, simply place the top back into the container and squeeze closed.*
- *Paper can be left on the cans. However, for those environmentally friendly fanatics remove the paper and recycle that as well.*

Note: Please rinse or wipe food residue from all containers. Residual food waste increases the risk of contaminating clean recycles and having these items end up at the landfill is increased.

Jenna couldn't answer a question about recycling of railway ties at the meeting but sent this response later:

Railway materials are recyclable but must be taken to the approved areas. The spike and tie plate can be taken to any approved metals recycler, transfer station or landfill for collection. The wooden tie with creosote must be discarded at an approved landfill, due to the toxic chemicals. Our Loraas Landfill is approved to take wooden ties and charges \$50.00 per 8ft length. Once we have enough ties collected, we pay Titan Clean Energy to properly discard this material.

Candace Odishaw thanked Jenna on behalf of the club.

50/50 Draw - Lorne Braithwaite coordinated the 50/50 draw. Candace Odishaw won the pot of \$25.

Sergeant-at-Arms: Sergeant-at-Arms Jack Scott quizzed us on the latest issue of Rotarian Magazine, with several questions relating to the article on the Great Western Trail (see photo at right). Jack also fined those who haven't signed up to help with the Enchanted Forest. Happy/sad dollars included John Hanlin for the presentation on recycling; Candace Odishaw for Glenn Hunter attending the meeting after learning about Rotary at the Salvation Army kettle; Joe Dierker for his trip to Australia; Jim Gillis for meeting Gordon Lightfoot with Stan Garchinski's help; Betty Ann Arscott for learning that our recorders are still being used in Ethiopia; Asit Sarkar for the death of former member Jack Gibson; and Edwin Larkai for leaving early.

The latest issue of Rotarian Magazine contained an article on the Great Western Trail. Here is your editor at the northern end of the trail in Val Marie, SK. The marker was placed by the Rotary Club of Regina in 2008.
