Program June 7, 2010

by Patricia Flaten

Murray Scharf and Gary Kerr spoke about their Rotary Friendship Exchange trip to "the best wee country in the world." (AKA Scotland).

The trip was in September, 2009 and they had the greatest of adventures. The PowerPoint presentation showed the evidence! Such as visiting sites of Robby Burns, John Knox, Walter Scott, Archie Campbell and so many others. Several battle sites, castles, curling venues and museum, distillery, old bridges (even an old Roman one, still standing), gardens and of course, golf clubs. Politically, they witnessed the urban-rural divide and EU agricultural issues. A nice twist to this tour was that there were always sub-hosts available, that is, they had a substitute available just in case a host was not able to host at the last minute. They did a great job of interspersing personal and planned and unplanned activities, so as to adapt to interests of hosts and guests. They also make use of separate women and youth clubs, but also have many joint district activities. The return exchange means that the Scottish Rotarians will be in Saskatoon from August 7-11 (about 8 people).

Announcements

by Patricia Flaten

President Bernie announced that there has been news of a change of system for ShelterBox, which will now be called Disaster Aid Canada. For now, members may wish to pause until making further donations until the new system is finalized. The new system will be designed for greater efficiency, effectiveness and less expensive.

Otto Ulrich submitted a letter of resignation due to hearing loss. He was given a standing ovation for his longstanding contribution as a Rotarian and we wish him all the best.
