Responding to COVID-19

- First Keep People Safe – Screening, Personal Protective Equipment, Infection Prevention & Control
- Slowing Transmission – No evidence of the virus spreading in long-term care; incredible work at Balmoral Centre during vulnerable population outbreak
- Isolation Shelter – served over 1,300 people to date who aren't able to 'stay at home'; crucial to protecting vulnerable population; isolation in the right place, preserving acute care hospital services for those who are acutely ill.
- Sharing Knowledge & Capacity – REDCap online screening tool has collected nearly 2 million individual screens in organizations across Ontario; provincial sharing of isolation shelter model and processes
