from Margaret for her daughter's birthday.

Arun introduced guest speaker Carolina Burges-Martin. Carolina has been a member of the London East Rotary Club since 2016. She has become involved in a project whereby used bicycles and bicycle parts are collected and shipped to South Africa or where there is need for them. The bicycles not only become a mode of transportation for the children but they provide a learning situation on how to fix bikes which could lead to possible employment. The project has gone through growing pains as the club ran into obstacles with logistics. They have received a great amount of help from the Grand Bend RC after having shipped 75ish containers of goods to South Africa. The London East RC is looking to expand this program and is hoping that other Rotary clubs might be interested in joining them. Carolina's talk this evening suggested this idea to London North. Certainly something for us to look at and think about. Doug thanked Carolina and presenter her with a Polio Plus certificate of donation.

Arun won the draw and graciously donated the winning bottle of vintage to guest Carolina.
