

A group of 8 regular Rotary members with their 6 guests met at the Forked Brewery Company in London at 6:30 pm.

We were welcomed by a team of two staff members. The initial part of our tour consisted in tasting four types of beers like these wonderful ones.

David Reed, B.E.Sc., P. Eng ex-

plained us his own career trajectory and the history of the company. It was launched in 2013 and has been growing ever since.

It is growing fast and its activities spans through London and its environs, Toronto and Ottawa.

The company brews for some other breweries in Canada.

Fruitful exchanges ensued. David explained the relationships with LCBO and Beer Stores. The Company pays provincial and federal taxes.

During the tour, production technicalities were explained to us: fermenting, flavours, and ingredients involved.

Reference was made to Ford's 'A buck a bottle': implementation faces hurdles. NAFTA shakeup has implications on breweries bottom-line because of the price of steel.

David expressed the wish of having us inform potential consumers

of beers locally produced.
