

Yombra Village and Neighborhood Water Project

Kenya

Kisumu

&

Yombra
Village

Discussions Today

- How It Started
- The Environment of Kenya
- Rotarians of Kisumu Central
- The Complete Modern Water System
- Financing

How It Started

The Rain of Hope Child Development Centre

Christopher Omira and RC Sarnia Bluewaterland

- Diesel corn grinder
- Eaves trough water collection system
- School desks and uniforms
- Food for children's breakfasts

Sixty preschoolers — aged three years to eight years

The Environment of Kenyans

- Hot and humid
 - 3 months without water
- Population 49 million
 - 60% under the age of 25
- Communication by cell phone
- Culture based on relationships

Culture Based on Relationships

TASK

RELATIONSHIP

Hot and humid, but...no water

Jerry cans everywhere

Tankers, too. Source ?

Families in Yombra get their water here

Rotarians of Kisumu Central

Collins Ndule, primary contact

Community Involvement

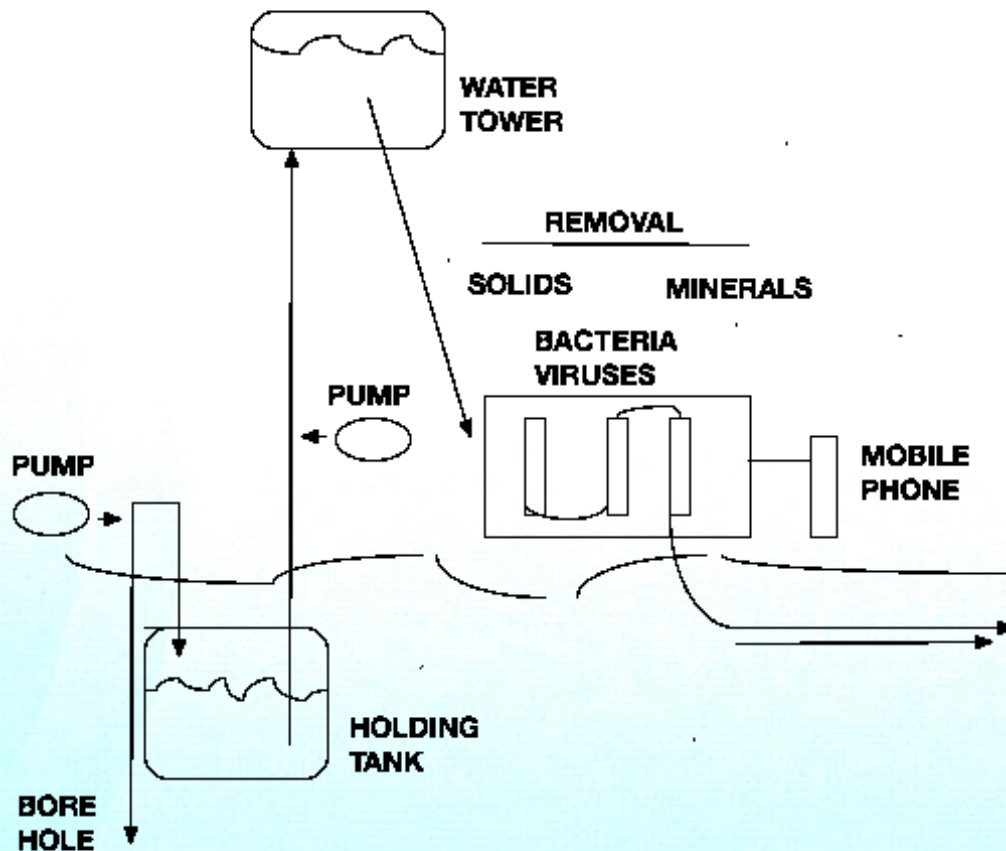

Clean, Modern Water System

- Bore well
- Solar powered pumps
- Elevated holding tanks
- Three types filtration
- Piping
- Three dispensing points
- Mobile phone payments

Managed by a
Safe Water
Committee

Plan for clean accessible water

Payment
using
mobile
phones

Financing

- Cost: 125,000 \$US

- Donations: Clubs 23,500

DDF 21,000

TRF 34,650

79,150

- Still Needed: 29,000 cash

Rotarians, All Working Toward the Same End

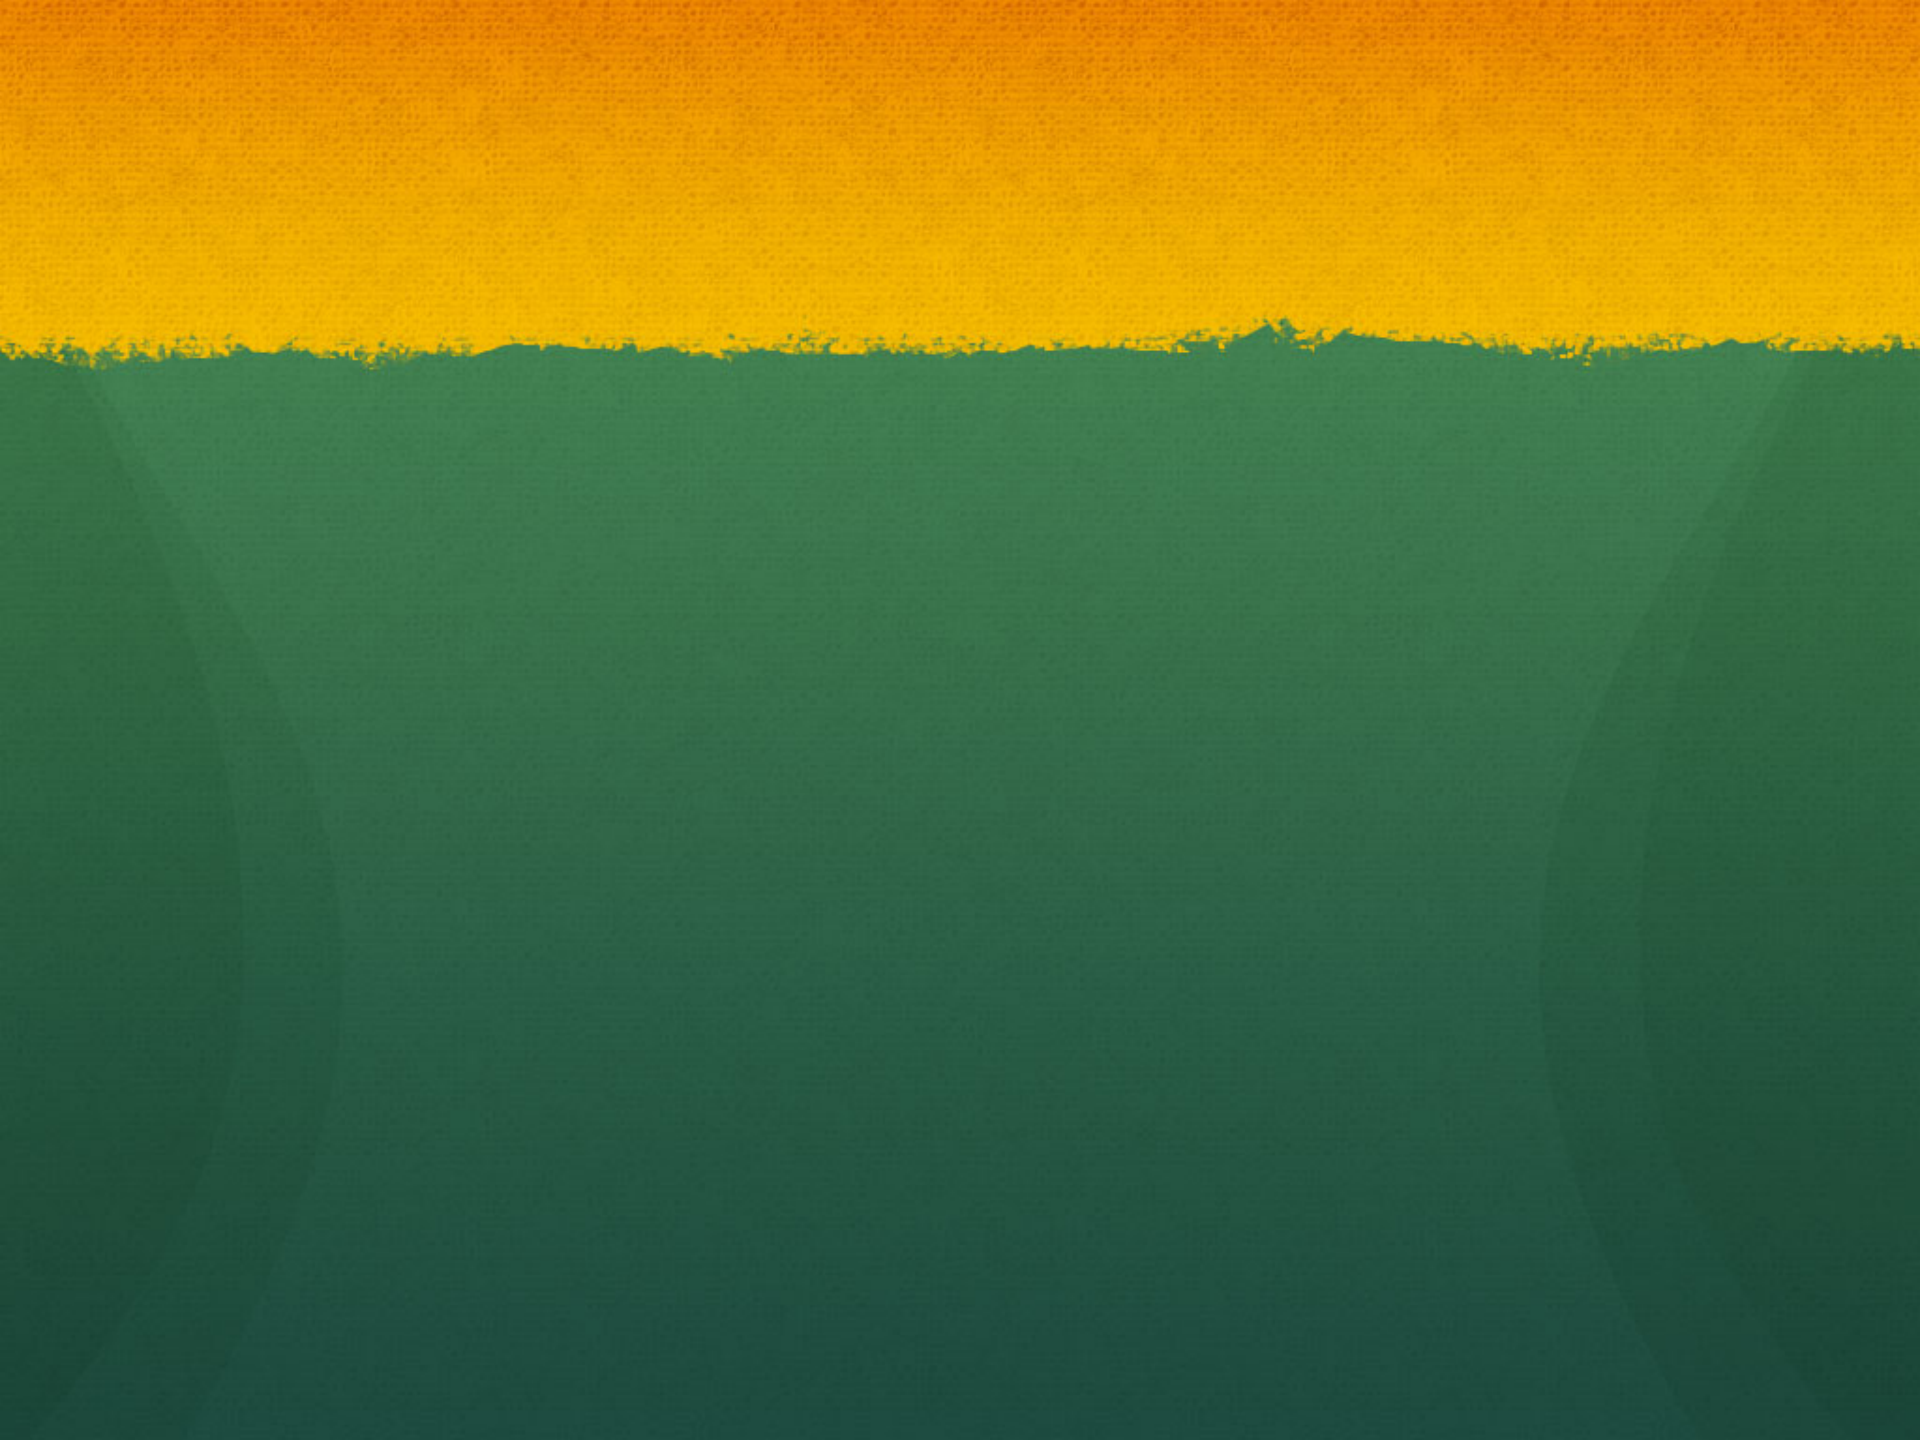

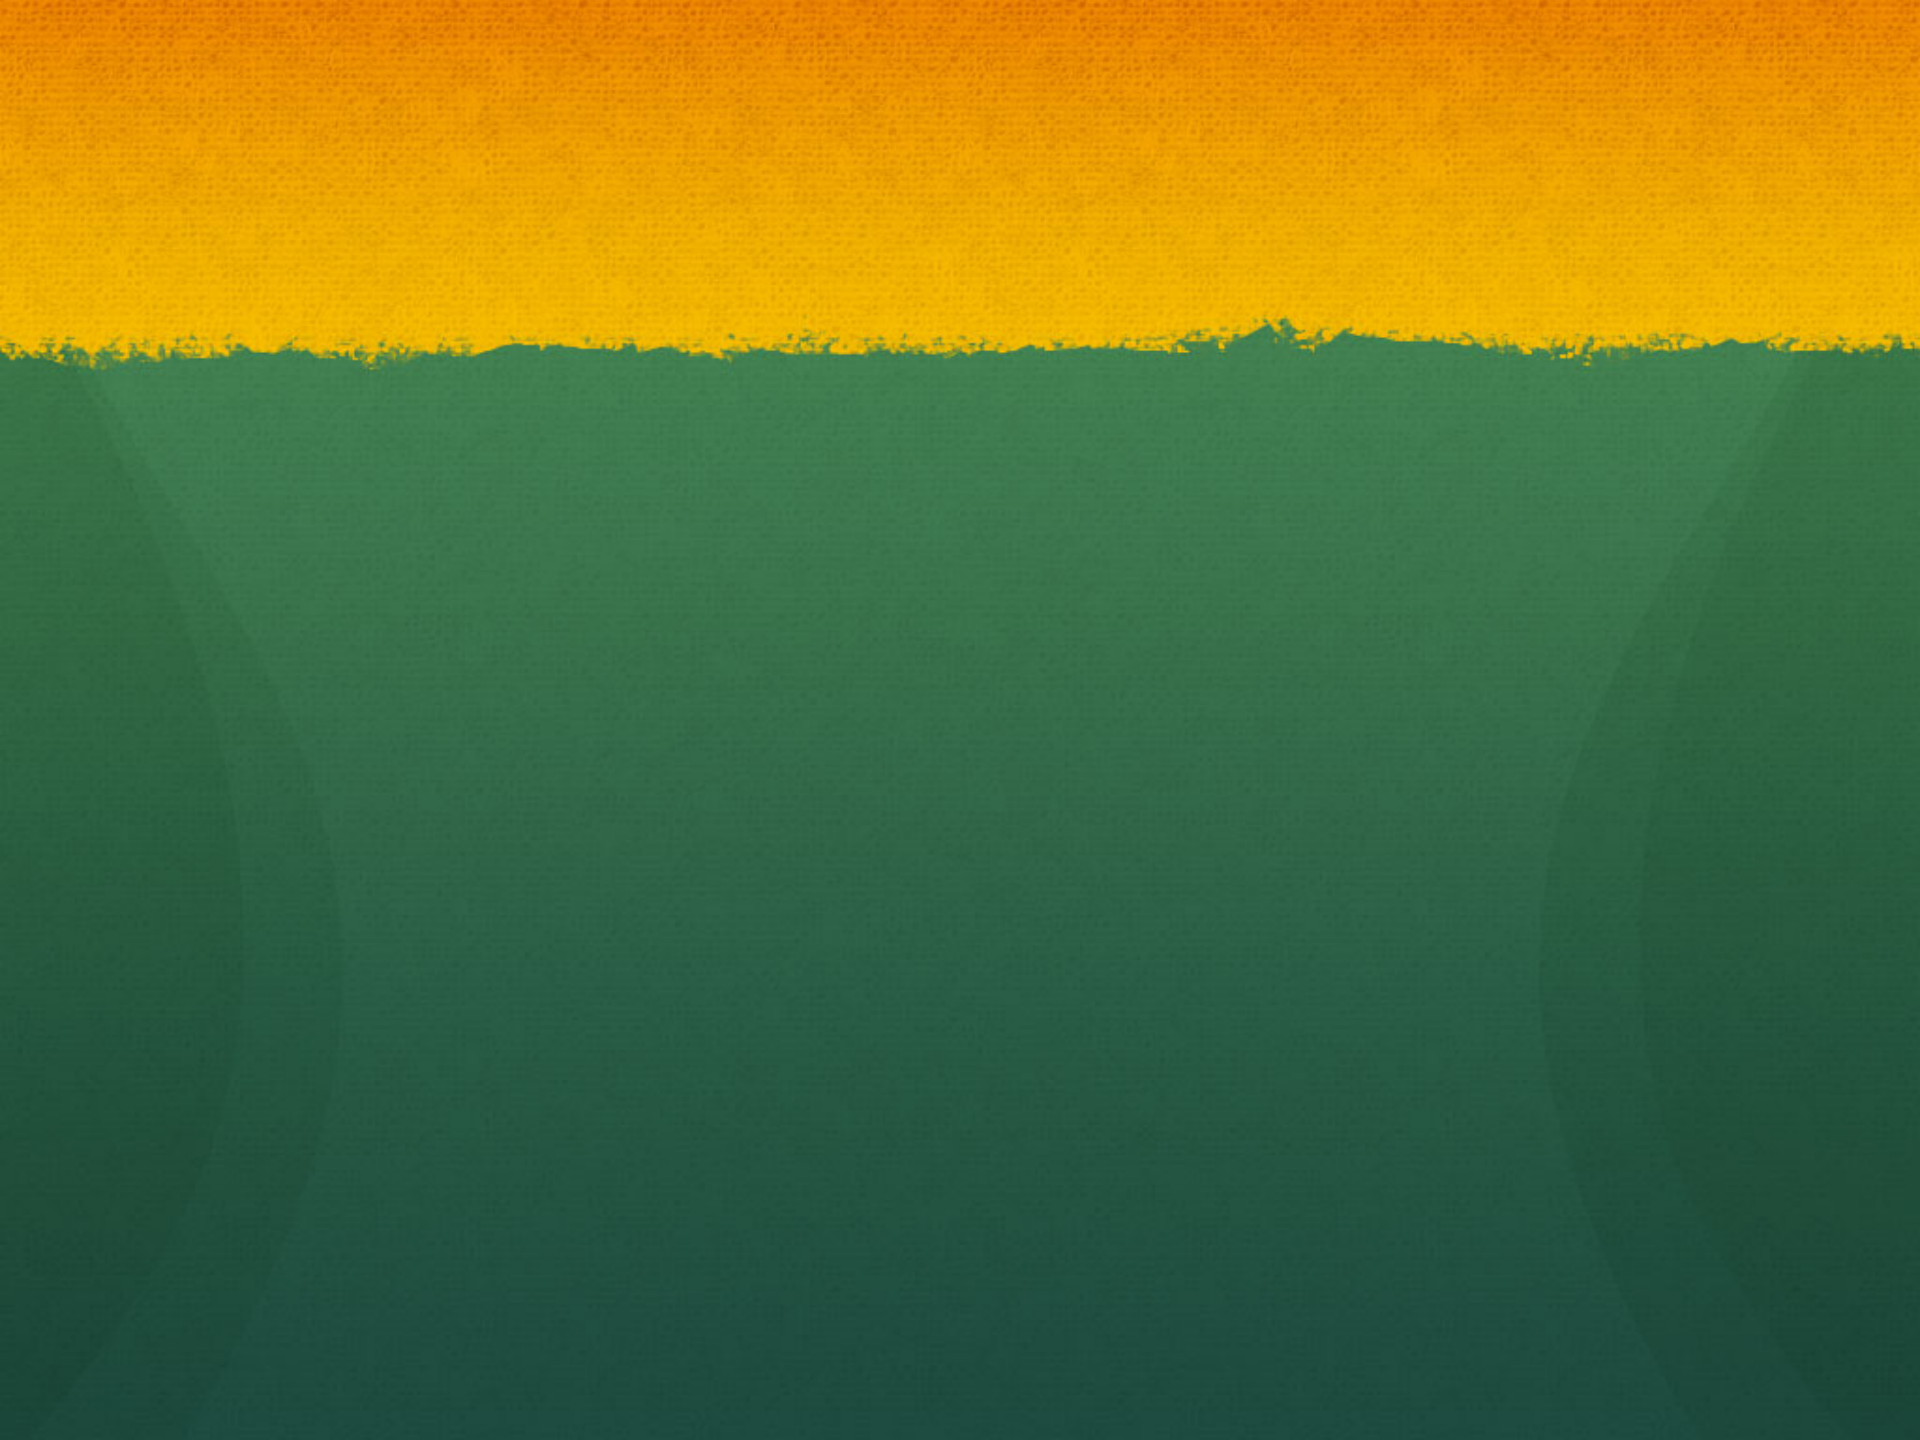

Rotarians of Kisumu Central

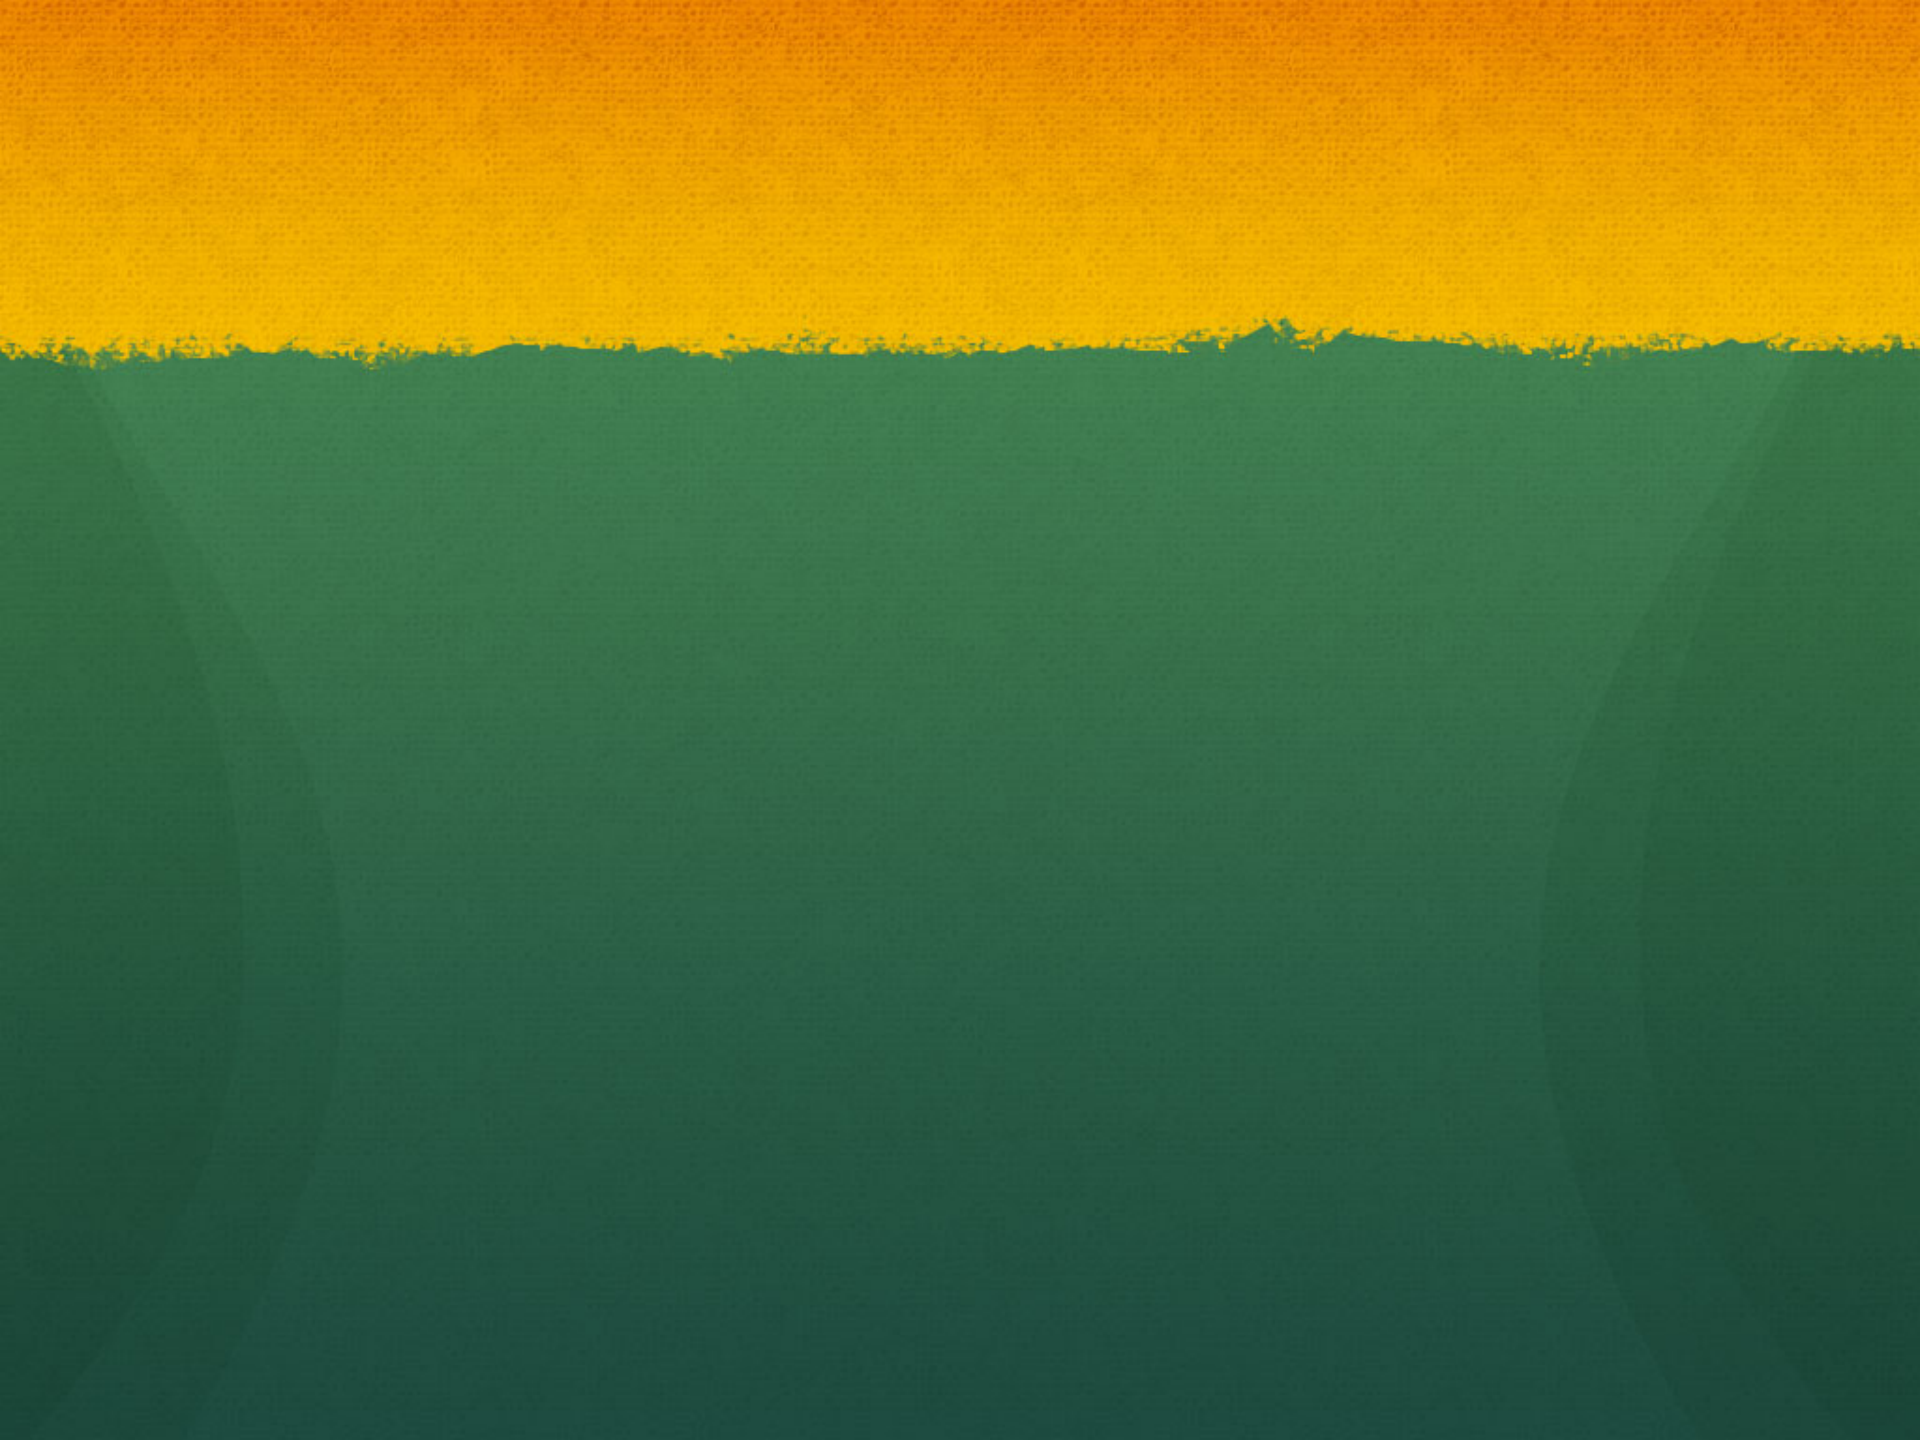

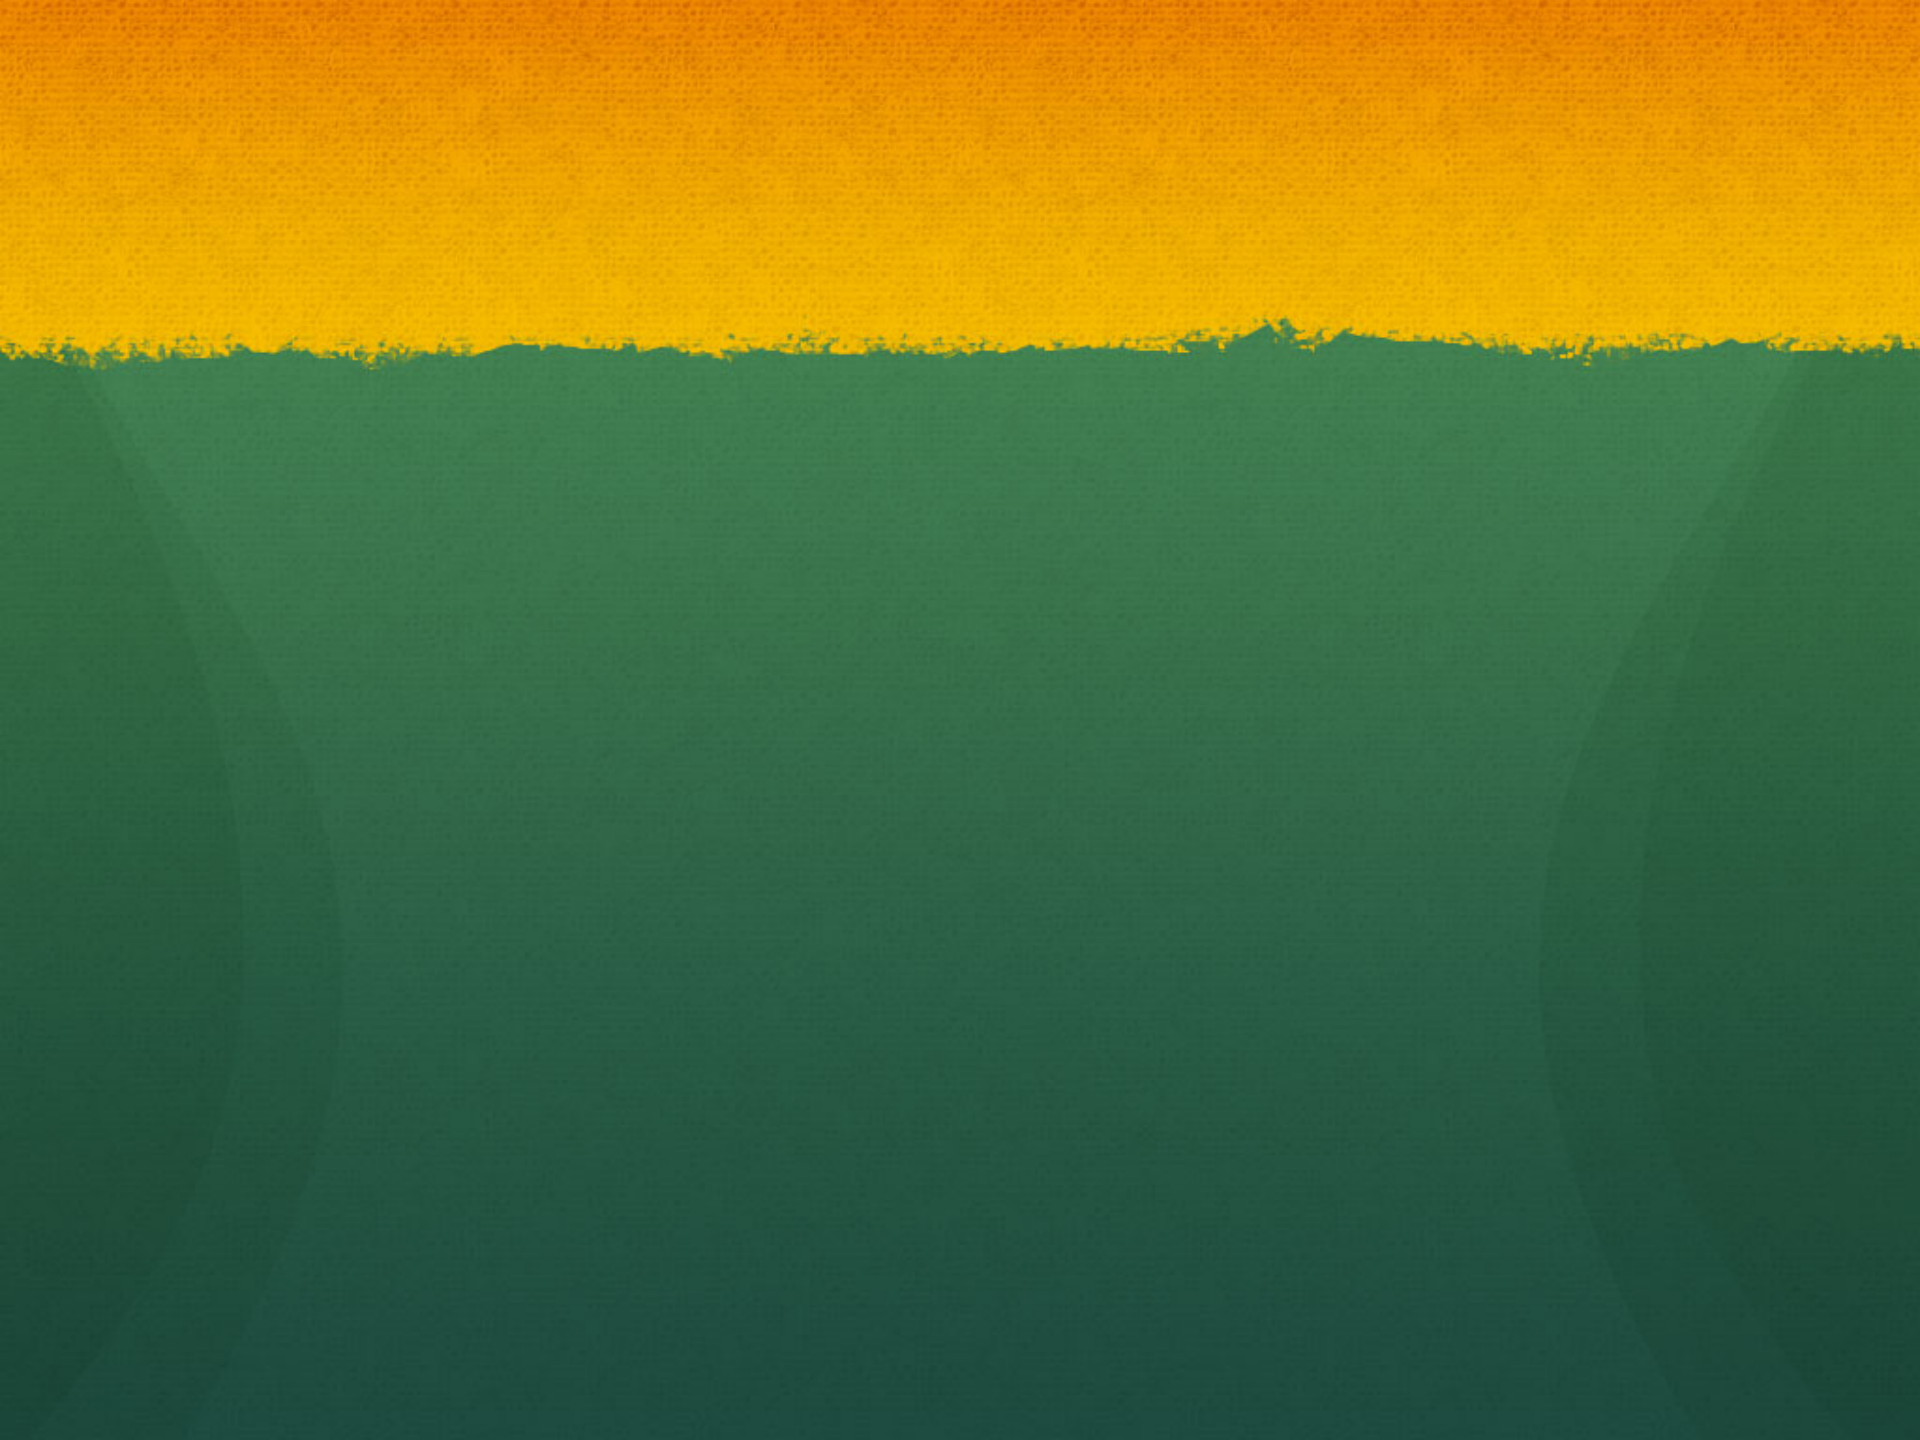

...Kisumu Central Rotarians, a talented, experienced group, is committed to working with Sarnia Bluewaterland to bring clean, drinking water to Yombra Village.
