AZ QUOTES

Greenhouse gas emissions by economic sectors

What have you done about climate change?

"I've stopped eating meat and I try to reduce consumption of any animal products in order to reduce my [output] of greenhouse gases."

Clare Duadelin,
sophomore

"I try to bike or take public transportation rather [than] drive."

Cameron Rast, junior

"I buy my clothes second hand."
Natalie Fuchs, junior

"I bought reusable straws, I use my reusable water bottle, and I used to carpool to school. Also, my family composts."

Olivia Oglesby, junior

"All my life I have used as many reusable things I can, like bags, water bottles, etc. I also have been trying to eat less meat lately."

Megan Snyder, sophomore

"Recycling more, upcycling clothes, eating less meat, carpooling when safe/able to."

Paige Martin,
senior

Suggestion for challenges

- Carbon footprint
- Methane emissions
- Question the candidates
- Save energy
- Stay healthy
