---

### 3. HOW HAS THIS PROJECT BENEFITTED THE LOCAL COMMUNITY?

Please, describe the benefits for the local community from this project.

Escuela José Cecillio de Valle is a primary school with 94 students in grades 1 to 6. The existing school was one overcrowded classroom with children attending in shifts or being schooled outdoors has weather permitted. Schools for children of the world Canada renovated the existing classroom and constructed one new classroom for the school. The project also included the construction of new washrooms and a septic system. The project also included the construction of a kindergarten complete with washrooms for 31 students. Together, these two schools will be a focal point for community events and will serve as a shelter during tropical storms and hurricanes the new washrooms and septic systems will promote healthy habits and greatly improve environmental conditions.

---

#### 4. ROTARIAN PARTICIPATION

Please, describe any non-financial participation by Rotarians in the project, incl. an estimate of hands-on hours

Toronto East Rotarian Norm Grey-Noble, is an architect and past president of Schools for Children of the World Canada. Norm provided approximately 40 professional hours, reviewing the site plans and building designs, reviewing the working drawings and ensuring the budget was in order.

Toronto East Rotarian Mike Phelan provided approximately 15 hours engaging the partner Rotary clubs in this project..

---
