Ultimate Ears WONDERBOOM™ 2 rocks a surprisingly bigger, bassy-er 360-degree sound — wherever you go, with Outdoor Boost, you can crank louder, more powerful audio that's specially tuned for listening outside.

Packing 13 hours of killer sound, it bangs through impromptu raves, beach detours, and pool parties. An IP67 rating means it's super waterproof, dust-proof, and built to

make a splash. It's your floatable pool pal, and your shower buddy. With a surprisingly big sound in one petite package, it's drop-proof* and sports a stylish hanging loop — so you can clip it, drop it, and rock it just about anywhere.
