

# Google Home Wireless Speaker with Home Assistant

Google Home is a voice-activated speaker powered by the Google Assistant.

Ask it questions. Tell it to do things. It's your own Google, always ready to help. Just start with, "Ok Google".

Get real-time answers including the latest on weather, traffic, finance, sports, local businesses and more.

A simple voice request triggers Google Home to play music.

Google Home will notify you and retrieve your calendar information, set up alarms and clocks and inform you about traffic on the way to work.
