

ESCALI - INFRARED SURFACE & PROBE DIGITAL COOKING THERMOMETER

The Escali Infrared Surface and Probe Thermometer is an extremely useful tool for the home or outdoor cook with its function of 2 thermometers in 1 device.

In surface infrared mode, the DH8 is able to read surface temperatures and when in probe mode it can read internal temperatures.

It's the ideal tool for the home or outdoor cook.

The IR mode is ideal for checking the surface temperature of grill grates, pizza stones, or the food you are cooking.

Retail Value: \$54.95
