What You Missed May, 4, 2018, Youth Day

- by Enrico Mocchi, Rotaract Club of Toronto

Last Friday, the Rotary Club of Toronto, in partnership with the Rotaract Club of Toronto and the Rotaract Club of Ryerson University, presented the Youth Civic Leadership Awards. Dr. John Malloy, Director of Education of the TDSB, and Dan Koenig, Associate Director of Academic Services of the TCDSB, were in attendance at this event to recognize the achievements of outstanding students.

The Rotary Club of Toronto took immense pride in acknowledging and celebrating students who have demonstrated astonishing leadership skills through extraordinary dedication and commitment to their communities in the GTA. This year's pool of applicants was particularly fertile and set the bar high for the next edition. The awards recipients are:

Platinum: Taylor Dallin, grade 10,
Cardinal Carter Academy for the Arts

Gold: Alice Cheng, grade 11,
Victoria Park Collegiate Institute

Silver: Emily Tu, grade 12,
Lawrence Park Collegiate Institute

Bronze: Julia Menezes, grade 12,
Father John Redmond

Despite their young age, the award recipients and finalists took decisive actions to tackle pressing issues and promote important causes, including mental health, illiteracy, bullying and environmentalism. These students worked to showcase unparalleled levels of initiative, striving to make tangible contributions to their local communities. Through their impactful stories and experiences, we had the chance to discover a new generation of leaders that will shape our country in the years to come.

I would like to express my gratitude and extend my thanks to all the Rotarians and Rotaractors involved in this initiative, to all the community and ticket sponsors, to the TDSB and TCDSB, and to all attendees. Thank you to the music students of Cardinal Carter Academy, as well as Ava Gardner and Tatiana Green of St. Joseph's College School, for providing entertainment with a splendid musical performance.

If not for the support of many, this event would not have been possible.
