

UKRAINE 3D-PRINTED PROSTHETICS PROJECT

HELP RESTORE LIVES
A Rotary-powered mission of hope and healing

THE URGENT NEED

- Up to 50,000 Ukrainians need prosthetic limbs **NOW**
- Plaster cast prosthetics take weeks to produce and fit
- Over 2 million landmines threaten lives across Ukraine
- Every delay means lost mobility and lost hope

- OUR GOAL:**
RAISE \$125,000 USD
- Equip a prosthetics workshop with **state-of-the-art 3D printers**
 - Deliver fast, affordable custom-fit prosthetics
 - Provide training and ongoing support to local clinicians
 - Drastically reduce wait times and help more people

YOUR IMPACT

- Restore mobility, dignity, and purpose to amputees
- Empower lower limb amputees to reclaim their lives and livelihoods
- Demonstrate **the power of Rotary's** global network

JOIN US

We must raise \$125,000 USD to bring this life-changing project to Ukraine.
