Greetings

FROM CANADA'S PRIME MINISTER

★ ★ ★ ★ ★

Evanston, Ill., U. S. A.—The President of Rotary International has received the following message from the Honorable Louis S. St. Laurent, Prime Minister of Canada:

"I am very pleased to have an opportunity to send greetings to all who will be observing the Golden Anniversary of Rotary International in February, 1955.

"In the past half-century, Rotary International has fully justified the hopes of its far-sighted and public-spirited founder, Paul Harris. During these years, it has expanded into many countries until it now united, under the banner of "Service", many thousands of professional and businessmen devoted to his ideals. Rotarians are setting a fine example of good citizenship and are doing much to increase the understanding between peoples, which is the essential basis of world peace.

"I should like to extend to all Rotarians my best wishes for a successful Golden Jubilee and for the continued success of their praiseworthy activities."

50th Anniversary

Greetings

FROM THE DISTRICT GOVERNOR

★ ★ ★ ★ ★

To Truro Rotary Club,
Truro, Nova Scotia.

My dear fellow Rotarians:

Please accept my most sincere congratulations and best wishes on this your twenty-ninth anniversary. Your Club was established February 23rd, 1926, this date coincides with the opening date of Rotary International celebrations commemorating that outstanding memorial date back in the year 1905, the birth of Rotary.

We should always remember, as each passing year brings greater appreciation of the bonds of friendship forged by pleasant Fellowships in Rotary; this message brings Greetings and sincere good wishes, with the hope that the ideals and principals of Rotary will continue to grow until they encompass the world, and peoples everywhere become imbued with the age old spirit of PEACE ON EARTH, GOOD WILL TOWARD MEN.

Again wishing your fine Rotary Club of Truro, Nova Scotia, continued success in the future, as you undoubtedly have had in the past, I am

Sincerely and Rotarily yours,

ALLAN MacDONALD,
Governor District 284.

Historical Sketch

THE ROTARY CLUB OF TRURO

By Ward Murdock

The Truro Club No. 2314, with 16 Charter Members, was first established on the 23rd of February, 1926, with the help of 25 Rotarians from New Glasgow, and 15 from Halifax, the latter headed by John C. Gass, who was mainly responsible for bringing Rotary to Truro.

The first officers elected were F. L. Lewis, President, A. R. Coffin, Vice-Pres., R. A. Mingie, Secretary and R. S. Boyd, Treasurer. Directors were E. G. Moxon, T. G. Taylor, and T. P. Bentley. This first meeting was adjourned until March 5th, 1926, when the Charter was presented by Charlie Burchell of Halifax, 3rd Vice-Pres. of Rotary International. Many visiting Rotarians attended the Charter night from Moncton, Saint John, New Glasgow and Halifax. Wm. P. Webster of Halifax presented the Truro Club with a bronze gong and gavel. Short addresses were given by Al Grainger, Pres. of the Moncton Club, and by Don Fraser, Past-Pres. of the New Glasgow Club, but the address of the evening was that of J. Layton Ralston of Halifax. He told of the spread of Rotary throughout the World, and of its acceptance by men of every station and walk of life, and also of his own experience as a special ambassador of Rotary International to introduce Rotary into Australia and New Zealand. Through the years our meetings have been held in the Scotia Hotel, which was first known to us as the Learment Hotel.

Our District was originally No. 32, then 192, and now is 284,—with the increase in Clubs, and the many changes it became necessary from time to time to change the District.

At the end of the first Rotary year the Membership of the Truro Club had increased to 32. New members included Fred Blois, Lou Christie and Lamert Daniel. In July of 1926 the New Glasgow Club put on a Minstrel Show in Truro, in order to help us with funds to start our Rotary work in the community. The show was a great success, and included a street parade to drum up interest.

Soon the Club Membership increased to 45, and remained near that number for many years. No Major projects were taken up but members individually through the Rotary influence, took an active part in all community activities, such as Town Council, Electric Commission, Boy Scouts, Children's Aid, Board of Trade, Canadian Legion, and many others.

In 1930, just after the death of Rotarian Harry Wellard, the Club supplied the Wellard Memorial Shield for annual musical competition, in the Truro Schools. It was won the first year by Willow Street School, and is still up for annual competition, and presented to the winners by the President of Rotary.

Also in 1930 the Truro Club first became actively interested in Crippled Children, and made a complete survey and canvass in the Town and County, in the interest of a "Provincial Society for Crippled Children".

In the early days it was a constant problem to raise funds to support the many community projects. Personal donations and the sponsoring of concerts

50th Anniversary

and moving pictures were often used, but the crowning effort came in the Spring of 1934, when the Club, after rehearsing all Winter, put on its first Minstrel Show, running two nights to capacity houses in the old Graphic Theatre, with a 20-voice male chorus and a 12-piece orchestra. Ed. McCullough acted as interlocutor, soloists were Gerry MacElhinney, Jim Pirie, Hec Munro, Ward Murdock and Gordon Taylor. Endmen were Jim Pirie, Fred Blois, Gordon Taylor, Elmer Doyle, Jack Glassey and Ward Murdock. The second part of the programme was a concert with many Truro artists assisting.

During the early years many joint meetings and picnics were held with outside clubs including Amherst, Windsor, New Glasgow, Westville and Pictou. Also Annual Curling Bonspiels were set up, with the Pictou County Clubs. It was during these years that the Annual Curling Matches started with the Kiwanis Club of Truro, for the Lord Depression Cup.

In the early thirties annual Club events were the entertaining of the County Council, and our meetings were started then, with our friends as guests from the various parts of the County each Fall. We have held meetings in Stewiacke, Middle Stewiacke, Upper Stewiacke, Brookfield, Old Barns, Clifton, Great Village, Bass River, Debert and Tatamagouche.

In these same years we started to supply milk in the schools, which is continued to this day, with many thousands of bottles being supplied. Our files carry letters from the School Nurse and the Local Council of Women, citing many cases of children gaining 5 to 7 lbs. in weight during the school year, thanks to our Milk Fund.

In the Summer of 1934 Rotary opened a supervised swimming pool, near the Salmon River Bridge, and supplied tents and other equipment. This was arranged by a committee that was headed by B. C. Holder.

In 1936 the Club set up the first library in the Colchester County Hospital, with 200 books. This has been maintained, and added to each year. In recent years, under the direction of Harry Weatherbee, a portable library has been added, so that a selection of books could be wheeled into each patient's room for them to make their own choice. Still more recently have been added more bookcases, through the perseverance of our member, B. C. Holder, who earned the **sobriety**? "Bookcase Holder" in his efforts to supply the necessary cases.

For nearly 20 years the Club held an Annual Motor Drive for the Girls from the Maritime Home, which was greatly appreciated,—perhaps this service should be revived again.

In 1936 Rotary Welcome Signs were first erected at the entrances to Truro, which continue to be maintained, and renewed as required.

Many hundreds of pairs of glasses have been supplied to needy school children on the Recommendation of the School Nurse.

In 1936 the Truro Club decided to make Crippled Children's work a major project of the Club, and a complete survey was made of the Town and County, to find every case of a crippled child. This resulted in a Clinic being held the following year at the Colchester County Hospital, conducted by Dr. Tom Acker of Halifax, to which Clinic 30 patients were brought in from the area for examination. This again resulted in many recommendations by Dr. Tom for operations and corrective treatment, etc. Many of these were needy cases, where the Club could help with transportation, hospital and surgical fees, etc.

50th Anniversary

At that time 12 individual Rotarians volunteered to sponsor a child each, to follow their cases through, and to see that they received all of the assistance required. Up to the present Crippled Children's work has continued to be a major project of the Club, with a proud record of many dozens of children, who, through treatment and operations, are now able to take their place in the schools and community at large in a normal way.

In 1937 the Club gave strong financial support to a Student Coronation Fund, which enabled D. G. Davis' nephew, Murray Davis, to go from Truro. It was a wonderful trip for him, and well described to the Club on his return.

In 1938 our second Clinic was held with 45 patients attending. Our records indicate such cases as that of a young girl who attended the '37 Clinic on crutches, being back in '38 without even a bandage required; a small boy, after an operation for a club foot, now clear of steel braces, and only requiring a special boot. A one-month old baby having a cast put on a crooked leg, which would be straight in four months. The Club History cites many similar cases of this great work.

During the War period four Rotarians were made Honorary Members, while on active service—Lyman Cahpman, Gerald MacElhinney, Art MacKenzie and Ward Murdock.

In 1940/41 the Club donated two pianos for the use of the troops at Debert. One, a grand piano, was returned after the War, in good shape, and was then loaned to the Provincial Normal College, and is now at the Maritime Home for Girls. The other piano, when returned, was useless, so was disposed of, and a good one was purchased, and donated to the new Margaret Rose School, at McClures Mills.

During the War period the Club also took a very active part in many War services. Entertainment for the troops, Air Cadets, supplying of comforts to members of the crew of H.M.C.S. "Truro", a Canadian Minesweeper, etc.

During 1944 and '45, the Truro Club entertained each week five wounded Veterans from the Debert Military Hospital, the expense being covered by holding a "Gosh Auction" in the Club each week. Previous to 1948 many methods had been used to raise funds for the many Community Service projects of the Club. For years personal donations, sponsoring of theatricals and moving picture shows were the normal methods used, and it was always a big problem in ways and means to meet our needs and obligations.

Late in 1947 when word was received that a radio station, CKCL, was to be established in Truro, the Rotary Club made an early application for an annual Radio Auction. This was authorized and the first Rotary Radio Auction was held on April 20th and 21st, 1948. Ward Murdock was named Auction Chairman with strong Committees. Many months of hard work were put in, planning and organizing for this venture. It was very successful, with every Rotarian taking an active part. The Club realized a net return of \$4,316.00 for its underprivileged children's work.

Similar auctions have been held each Spring since 1948, all of which have been successful, and have supplied the Club with ample funds for its work. Many stunts result from the Auction, which are taken in good part by the Rotarians, such as Russ Davison drawing bids up to \$65.00 as a special "baby sitter", others leading a pig and a goat through the streets of the Town, accompanied by Rotarians on parade.

For many years the Club has owned several wheel chairs (Now 5),—these are constantly in use, loaned out free of charge to those who need them. In 1948 a Truro Club member was elected a member of the Canadian Advisory Committee of Rotary International.

50th Anniversary

During the same year the Club completely outfitted a Rotary room in the County Hospital, and have maintained it since that time. In 1949 the Club sponsored the family of an ex-Rotarian, refugee in Poland. They were in dire need as a result of the War. Parcels were sent to this family each month for a year and were gratefully acknowledged.

Also, during 1949, a boat load of supplies was being sent by Rotarians to aid orphaned children of France. To this project the Truro Club gave outstanding support, which resulted in \$5200 in food and 18 bales of clothing going forward from District 192, all arranged under the direction of District Governor Laurie Ells of Kentville.

In February, 1949, the Club authorized the first Radio School Quiz Contest, afterwards named "Schools in Action". This programme over CKCL has been carried on very successfully each year since, and has received much favorable comment.

July 28th, 1950, was a Red Letter Rotary Day in Truro when we enjoyed a visit from International President Arthur Lagueux of Quebec, accompanied by his Rotary Ann Christine. President Arthur was with us at an evening dinner and was accompanied by District Governor Ed Ford of Halifax. Our Rotary Anns entertained Mrs. Lagueux and Mrs. Ford during the afternoon and evening.

In 1951 when the "Adventure in Citizenship" was first inaugurated by the Ottawa Club, Truro sent a selected High School student and have continued to send one each year since. These included Ross Burgess, Borden Taylor, Jack Hatfield and Sandra McKay. The specific aim of this project was:

- (1) To give the group of visiting students an appreciation of the privileges and responsibilities of Canadian Citizenship.
- (2) To give them an opportunity to see the Canadian Parliament in action.
- (3) To show them some of the outstanding features of the Canadian Capitol.
- (4) To encourage them to give an account of their visit on return to their home community.

All of these talented young people spoke to the Truro Club on their experiences, after they returned, proving to us the great value of the project.

During the year 1952 our Club started the practice of presenting to each visitor from outside Canada a small silk Nova Scotia flag, and a booklet of Nova Scotia history. These seem to be greatly appreciated by our guests.

We have had many outstanding men as guests speakers in our Club, including Col. the Honorable J. Layton Ralston, Dr. Kirkconnell, Col. Robert Harewood, Rubinoff, Air Vice Marshall Clarence Dunlop, Arthur Lagueux, A. V. Baker, Will R. Bird, Lord Rowallan, Frank Bayrd, Judge George Patterson, and many others.

We have supported the Rotary Foundation Fellowship. Last Fall, sending forward an additional donation to bring ours up to 100% for our Club Membership. This year there will be selected 109 Rotary fellows, 90 men and 19 women, who will study for one year in countries other than their own on \$2500 scholarships from Rotary International. This brings the total since 1947 up to 602 students helped in this way.

The Truro Club does not have an outstanding record of 100% meetings. They have been few and far between. However, we have maintained a good average over the years. At the time of writing the Club Membership stands at 52 plus Honorary members. Many fine members have come and gone in the Club, but it continues to draw a very high calibre of members imbued with the Rotary ideals of "Service above Self" and "He profits most who serves the best".

FINIS.

Rotary International

★ ★ ★ ★ ★

The four objects of Rotary are—To encourage and foster the ideal of service as a basis of worthy enterprise, and, in particular, to encourage and foster:

1. The development of acquaintance as an opportunity for service.
2. High ethical standards of business and professions: the recognition of worthiness of all useful occupations: and the dignifying by each Rotarian of his occupation as an opportunity to serve society.
3. The application of the ideal of service by every Rotarian to his personal, business and community life.
4. The advancement of international understanding, good will and peace through a world fellowship of business and professional men united in the ideal of service.

Paul P. Harris, the founder of Rotary, was born in Racine, Wisconsin, on April 19th, 1868.

In 1896 he went to Chicago to practise law. One day in 1900 he dined with a friend. After dinner they took a walk and stopped at several stores and shops in the neighborhood, where his friend introduced Paul to the proprietors, who were his friends. Paul Harris was impressed, and wondered why he could not make social friends out of some of his business acquaintances. Later he resolved to organize a Club, which would band together a group of professional and business men in friendship and fellowship.

On February 23rd, 1905, the Club's first meeting took place, and the nucleus was formed for the thousands of Rotary Clubs that were later to be organized throughout the world. The new Club was named Rotary, because the members met in rotation in their various places of business. The first members were all friendly and congenial, and each represented a recognized vocation different from that of the others. They had been selected without regard to religions, racial or political differences.

The first small group included a coal dealer, a mining engineer, a merchant tailor, and Paul Harris, a lawyer. Personal ambition had been largely responsible for the first grouping. United they would stand, divided they might fall, and so they helped each other in every way that kindly heart and friendly spirit could suggest. Words of friendship and pleasant noonday meetings were soon not enough to satisfy these early Rotarians. Things needed to be done in the community, and these men saw the need. Rotary's first public service consisted of initiating the establishment of public comfort stations in Chicago, also in the first year Club singing was introduced in Rotary.

50th Anniversary

Membership grew rapidly, as a result of the meeting of Manuel Munoz, a Chicago member, with Homer Wood, a young attorney of San Francisco. The second Club—the Rotary Club of San Francisco, was organized in November, 1908.

Through the efforts of the same Rotarian Wood, during the first six months of 1909, three additional Clubs were organized on the West Coast in Oakland, Seattle and Los Angeles.

Then other Clubs were organized, until in 1910 there were 16 Clubs. In that year the first Rotary Convention was held in Chicago with 29 delegates, representing 14 of the 16 existing Clubs. At this convention a National Association of Rotary Clubs was organized, with Paul Harris being elected President, and Chesley Perry Secretary, in which capacity Ches served until he retired in 1942. Also, at this Convention, and again at the second Convention, the words "Service before Self" were used, out of which evolved the motto of Rotary—"Service above Self, He profits most who serves best".

Before the end of 1910, eight more Clubs were organized, including one in Winnipeg, Can. The next history making event in Rotary was the organization of three Clubs in Europe in 1911—Dublin and Belfast, Ireland, and London, England. So, at the 1912 Annual Convention, the name was changed to the International Association of Rotary Clubs, which in 1922 was shortened to "Rotary International".

Paul Harris was first President of both the National and International Associations. When he passed away in 1947 he was "President Emeritus".

Rotary continued to grow and encircle the world with Clubs in Scotland, Hawaii, Cuba, China, Panama, India, Argentina, Japan, Spain, South Africa, Australia, France, Mexico, Peru and Denmark, etc. Thus, in a brief span of seven years, 1914, with 100 Clubs, it grew to 1000 in 1921.

At the Duluth Convention in 1912 the original first object, which emphasized the promotion of each other's business interests, was removed. Personal gain as a moving force was thus officially eliminated.

An event of far reaching significance in 1911 saw the beginning of "The Rotarian" as Rotary's official magazine, and in 1933 the board of directors authorized the start of publication of "Revista Rotaria", a Spanish language edition of the Rotarian.

Rotary now truly encircles the World. There are Clubs on all six Continents, and in most of the countries of the free world. In 89 countries and geographical regions there are now more than 8400 Rotary Clubs, with a membership of over 400,000 business and professional executives, differing widely in language, customs and economic, political and religious concepts, but united in their devotion to the Rotary ideal of service to mankind. Rotary emphasized the ideal of service—for service, in a Rotarian sense, is a mental process, an attitude of mind which relates persons and things with action "Thoughtfulness of others is the basis of Service, Helpfulness to others is its expression".

We are observing not only the Golden Anniversary of the founding of Rotary, but of the entire service club movement, since Rotary was the pioneer club to establish as its fundamental characteristic the spirit of altruism and of service

50th Anniversary

to mankind. The founding of Rotary loosed an idea that is still rampant in the proliferation of comparable Clubs.

There is probably no community activity that has been so great in its general appeal and in its humanitarian service to youth than that of crippled children's work. It began in 1913 in Rotary, and has been a major project with many Clubs ever since.

The response to an urgent appeal to Rotary Clubs in 1945 to send clothing to London for bombed out victims was so spontaneous and so successful that Rotary had the distinction of being invited to "spearhead" the United Nations Drive in the U. S. A. for 150,000,000 lbs. of clothing.

After the death of Paul Harris in 1947, the Directors of Rotary International established a Rotary Foundation Fellowship programme as a memorial to the "Founder of Rotary". The plan is world wide in scope to enable young men and women with potential leadership qualities to take one year of advanced study abroad in colleges and universities. During that first year 21 Fellowships were granted. More than 600 Scholarships have now been granted, averaging \$2500 each to students from 57 countries at a total cost of \$1,750,000. These students studying in a country other than their own are truly ambassadors of goodwill. In this, Rotary is endeavouring to foster better International relations by increasing the personal contacts, which the nations of the world have with each other.

At the United Nations' Conference on International organization in San Francisco, there were forty-nine Rotarians in attendance as delegates, advisers and consultants. Since that Rotary has kept its Clubs informed with background information on the Bretton Woods, Dumbarton Oaks and other U. N. conferences and actions.

Rotarians believe that Rotary now has its greatest opportunity to prove itself a great world-wide force for international understanding, goodwill and peace. The Administrative body of Rotary International is a Board of Directors, elected by the Convention, with at least one Canadian member each year, one of whom is always the immediate Past President.

Vice-Presidents are selected from the Board of Directors. To assist the Directors in developing the program of Rotary, there are a number of standing and special committees.

The highest authoritative body in the organization is that of the delegates of Rotary Clubs, assembled in their Annual Convention. Here they receive reports, consider amendments to the constitution, and by-laws, and elect the international officers for the ensuing year.

For administrative purposes Rotary Clubs are grouped into districts, each under the leadership of an elective officer, called the district governor.

The central office of the Secretariat of Rotary International is located at Evanston, Illinois, where a new headquarters' building was completed last year, regional branch offices are located at Zurich, Switzerland, Bombay, India, and London, England.

All Rotarians are invited to visit the central or regional offices, whenever they may have the opportunity.

The Objects of Rotary

★ ★ ★ ★ ★

The objects of Rotary are to encourage and foster the ideal of service as a basis of worthy enterprise and, in particular:

1. The development of acquaintance as an opportunity for service;
2. High ethical standards in business and professions; the recognition of the worthiness of all useful occupations; and the dignifying by each Rotarian of his occupation as an opportunity to serve society;
3. The application of the ideal of service by every Rotarian to his personal, business and community life;
4. The advancement of international understanding, good will, and peace through a world fellowship of business and professional men united in the ideal of service.

WHAT WE OWE ROTARY

Right to be called a Rotarian.

Obligation to serve.

Time to do your part.

Attendance at meetings.

Rightful share in the development of your Club.

Your allegiance to Rotary ideals.

By ROY CUDMORE,
Charlottetown, P. E. I.
