

Post - Secondary Entrance Educational Bursary

Application

Bursaries are awarded each year, depending on the availability of funds, and each one is non-renewable.

The Bursary Selection Committee must receive applications **no later than May 1st**.

An application form is available on the menu on the left and will include the following information:

1. Candidates must have college or university entrance standing – depending on institution of choice. An official transcript of marks and two letters of reference must accompany all applications. A statement of why you should be selected for an award would be helpful to the Bursary Selections Committee. Among other factors, the Committee will take into consideration need, academic standing, and community involvement.
2. If possible, please include total family income for the calendar year of acceptance; or, if you have applied for and received a Canada student loan, please supply a copy of your letter of eligibility for the loan.

Signature of applicant

Signature of parent or guardian
