PROGRAM - MeKoe & Dave Peterson - Sleep in Heavenly peace

501c3 non profit run by volunteers and supported by donations.

They build and deliver beds to children without beds. Mattress and all bedding included. "No kid sleeps on the floor in our town"

Started in Iowa by a gentleman building a bunk bed in his garage with extra wood and posting it on FB "FREE to anyone who wants it" and the response was overwhelming. Now 26 chapters, ours covering Wexford and Missaukee co.

First component is building the beds (supported by fundraisers - 350 ea) and the second component is finding families in need.

Currently have most of the tools and supplies needed, but would like a trailer for hauling. Host build days to assemble beds. These can be public build days or sponsored build days. Each piece is built and stained and ready to be delivered and assembled. 20-30 volunteers each. Goal to have 1 build day a month and build 15 beds each. Shpbeds.org has applications for people in need. Can be done by person, parent, or advocate. Love Inc and DHHS have partnered in advocating but looking for financial partners and sponsorships for build days. Also can host a bedding drive for sheets, comforters, etc.

So far 4 sets of bunk beds and 2 additional mattresses with bedding delivered in Wex/Missaukee co.
