PROGRAM - Traci announcing committee chairs and making some announcements on this Rotary Year.

She doesn't live in this community but knew immediately that she wanted to be a part of this club when she witnessed the pillars in the community that were involved. Her goal is to inspire and follow Barry's vision of "Be the Inspiration" this Rotary year.

Inspiration leads to motivation and impact. Seek what inspires you within. She believes that our club is inspired and does incredible things! She is going to strive to seek more acknowledgement of the work we do and who is involved.

On June 9th, a few pillars in our club met to discuss a vision/goal planning meeting and spoke about what we wanted to move forward with this year. We sent a survey previous and from the comments of the 23 Rotarians that submitted a response, a plan was formed.

We will continue to have our annual Rotary Auction and will instill a new energy to it. We are seeking a committee chair at this time.

We will work toward growing our membership this year as well. Many hands make light work and new ideas and energy will be awesome. We have new business cards to equip members with that invite people you encounter to join us and be a part.

Club image will be a third focus. When people hear the things we do and have a hand in helping accomplish, they're always amazed. We will work on awareness and branding. This will also help attract people to our club for membership.

Finally, at our last board meeting, we had to make some tough budget cuts (8k) and we will work toward getting the budget in better shape this year to hand off to Mark for his Rotary presidency.

Board of directors announced and can be found online. Other committee chairs and members announced.

NEXT MEETING PROGRAM - McKoe Peterson - Sleep in Heavenly Peace
