### **Meeting News**

The weather may be unusually warm for this time of year, but the daylight is shrinking according to schedule. It was sooo dark this morning, that all the Rotarians walking up the hill to Castle Pub appeared like ghostly figures. Our attendance reached 38 this morning including guests: Benjamin White, Judith Abbott ( Sissy's friend and a potential new member), Susan Klein, (the head of the Chamber of Commerce and our speaker today) and John Daniell, who is making his last appearance here until Spring,... he hibernates in Connecticut for the winter.

### **Announcements**

Bob Holden cannot move back into his house as planned on Nov. 1st, as more mold and wet spots have been found still in places in his old farmhouse

Lorraine told us the BOD meets today.

Carol Hosford -reported:

Most homes, businesses, and farms affected by the flood have now completed the initial stages of cleaning up. However, there are numerous homes and businesses that need a variety of things to happen before they reach their "new normal."

Over 150 families Valley-wide applied for FEMA funds. Many of these will be able to meet their needs. But some 15-20 families will need ongoing help. The Flood Recovery Group based at the Masons' Hall has organized thousands of volunteer hours. Now we have formalized a long-term structure composed of a board and committees to complete the work that needs to be done. We need volunteers for several different jobs. Here they are:

1. Construction: Peter Edlund needs people to work with him closing in buildings - sheet rock, nailing down floors, insulating.....
2. Support: Anne Vlahos heads a committee of people who have agreed to work with one or two families over the next 18 months (as needed) to work with them on next steps and refer them to the proper entity to help them out. Training and materials will be provided so you'll know what to do.
3. Documents: Tom Barefoot heads a committee of those who are willing to help people understand a variety of documents they may receive from insurance companies, FEMA, etc.
4. Volunteers are still needed to man the desks at the headquarters. Any amount of time would be welcome. It involves answering phones and referring people to whoever can help them.

Thanks to the Rotarians who volunteered yesterday! If any of the rest of you would like to help, please contact me at [/crhosford@madriver.com/](mailto:crhosford@madriver.com) and I'll pass your name along.

## **Program**

Art Conway introduced Susan Klein, who runs the Mad River Valley Chamber of Commerce.

Susan informed us that she is born and bred in Vermont and now lives in Fayston. She & Karl are going to NYC for Christmas to see a Broadway show.

Just as Carol Hosford reported about the work being done to repair the damage of Irene, the Chamber of Commerce is doing their share

Many people called looking for a place to stay.

The Chamber has over 200 business members and 100 "Friends" who contribute \$100. each.

At least 80% of their Budget is used to promote local events. You can access the Chamber for information on all local events. They interact with Sugarbush for promotional activities.

Weddings are a big source of business for the Mad River Valley.

The Chamber supports many events such as the Mad River Marathon, Opera etc. which bring a lot of visitors to our community. All these events help support the economic health of our community.

On Dec. 13th, there will be a party at Timbers to celebrate the spirit of decorating our area for the holidays.

She thinks the Waitsfield Covered Bridge will be open in 4 - 6 weeks and hopefully all the road construction will be finished before the holidays.

## **THE FOUR WAY TEST**

of the things we think, say or do:

- 1) Is it the Truth?
- 2) Is it Fair to All Concerned

- 3) Will it Build Goodwill and Better Friendships?
- 4) Will it be Beneficial to All Concerned?
