**Past District Governor**

**President Karen Furnari** introduced Past District Governor Nick Frankle. Frankle noted that Peace was built in many different ways, and it was vital that Rotarians see the many ways that they can make a difference. He spoke about our role as Rotarians in supporting many of the different important projects that promote peace. These include clean water and sanitation projects, education projects, projects providing shelter, projects providing food and sustenance, and more.

Frankle invited the TO club to become a Peace Builder club. In order to accomplish this, we need to embrace a project that supports the principles of Peace Building. This will involve our need to participate in Peace Education as well. PDG Frankle looks forward to hearing from us and learning what project or projects we wish to take on.

## President's Message

Dear fellow Rotarians,

One of the things I appreciate most about serving as president of Rotary International is the people I get to meet. Much of my time is spent traveling and visiting Rotary clubs around the world. A Rotarian welcome is something quite special. But let me tell you, there's nothing so warm as the welcomes that have been rolled out for me by Rotaractors. These are young people who are committed to Rotary ideals, who are pouring their hearts into service, and who, in the process, don't forget to have fun....

Rotaractors are blazing the path for Rotary to be more relevant in this new century of service. And **World Rotaract Week, which we're celebrating 11-17 March**, is the perfect opportunity to get to know your local Rotaractors and talk to them about how your clubs can work together.... Rotary is powerful. Together with Rotaract, it is unstoppable. Working side by side, we have the potential to *Be the Inspiration* in every part of society, to every person we meet.

## Peace Building at Work

For 10 years, Rotary and USAID have been working together in a strategic partnership to provide clean water, sanitation facilities, and hygiene education in developing countries. Collaborating with the world's largest governmental aid agency has yielded valuable lessons on how to achieve a truly integrated and effective public-private partnership.
