## **DG APRIL MESSAGE**

#### Greetings Fellow Rotarians and Rotaractors

The record of women dying at a high rate from preventable causes due to pregnancy persists. What's worse is that babies who lose their mothers have a higher risk of dying in the first two weeks than babies whose mothers survive. Hence, the importance of the area of focus - Maternal and Child Health cannot be overstated, and we must continue to seek meaningful ways to help save the lives of mothers and their babies. I, therefore, applaud our clubs that have done educational and child feeding projects and/or other Maternal and Child Health projects. For clubs that have a keen interest in a related international project please know that there are opportunities on Rotary Ideas to which we can lend support.

Even as we put the spotlight on Maternal and Child Health, we cannot help but consider three other areas of focus that are in the forefront because of COVID-19 which has the world in crisis. I speak of Disease Prevention and Treatment, Water and Sanitation, and Economic and Community Development.

The World Health Organization, Governments, businesses, organizations, families and individuals are grappling with measures to prevent this highly contagious and deadly virus from spreading. As Rotarians and Rotaractors we are expected to play our part by being responsible and respect the calls for social distancing, hand washing and sanitation. We are also asked to consider and take action, where possible, to help alleviate the concerns of our first responders and our health-care systems so that they can adequately cope with any increase in COVID-19 cases. Perhaps we can assist with procurement and/ or contribution to the cost of much needed medical gear and supplies. In this regard, please be reminded of Rotary's Grants Dispensation as outlined in Foundation Chair PDG Patrick Adizua's 2nd April letter. Additionally, if allowed perhaps we can volunteer to shop for those who are considered high risk individuals.

Water and Sanitation is another area of focus that is crucial. I, therefore, wish to use this opportunity to emphasize the importance of District 7020 HANWASH programme for Haiti. I ask those of us who have regular running water to think for a moment about how we would manage without water especially during this COVID-19 crisis. Then consider the plight of about 50% of our neighbors in Haiti who do not have access to safe running water and sanitation. Therefore, it is important for us in District 7020 to be in the forefront of this initiative in order to help to transform lives in Haiti.

Undoubtedly COVID-19 will have a devasting economic impact on our countries, which brings to mind to another area of focus - Economic and Community Development. Rotarians tend to be able to accomplish extraordinary humanitarian feats, so please consider how we can lend support in these very difficult times to persons who have suddenly become unemployed. I commend all clubs that are finding it possible to assist and one example is the BVI Rotary Family. They answered the call to help raise \$50,000 and have found a partner in the BVI Social Security Board to assist with much needed food supplies to help families facing hardships at this time of economic fallout and uncertainty. If you have not done so already you may wish to consider the possibility of a global grant for micro loans to help micro businesses get back on their feet, or one to help jumpstart a particular industry providing that the community needs assessment justifies such projects.

## **ROTARY CLUBS HELP FIGHT THE COVID-19 PANDEMIC**

Members use ingenuity, flexibility to help people affected by coronavirus and to stay connected

As the COVID-19 pandemic spreads uncertainty and hardship around the world, Rotary members and participants are innovating, caring for those affected, and showing that even at a distance, there are ways to help.

As people of action, Rotary members are engaged in their communities — gathering for projects and offering help to those in need. But in many areas, life is changing drastically. Health experts are urging people to maintain distance from others or even isolate themselves in order to slow the spread of the highly contagious virus.

Fighting disease is one of Rotary's main causes, so members already support efforts to promote proper hand washing techniques, teach people other ways to stay healthy, and supply training and vital medical equipment to health care providers. Now they're helping health authorities communicate lifesaving information about COVID-19 and donating protective gear and other supplies to clinics and hospitals that are under strain because of the pandemic.

## These are just some of the ways that members are supporting their communities right now:

- In Italy, one of the countries that has been affected most, clubs in District 2080 are raising funds to purchase ventilators and protective gear for overstretched hospitals. And when the worst of the outbreak was raging in China, the district's clubs raised more than \$21,000 for protective masks to prevent spread of the disease there.
- Clubs in District 2041, also in Italy, raised funds online to buy protective gear for health workers who will care for COVID-19 patients at a 400-bed hospital being built at Milan's fairgrounds.
- In Hong Kong, Rotary clubs have raised funds, packed medical supplies, and visited public housing to distribute masks and sanitizers.
- Rotary clubs in Sri Lanka installed thermometers in airport bathrooms and produced posters to raise awareness about the coronavirus for schools across the country.
- The Rotary Club of Karachi Darakhshan, Sind, Pakistan, distributed thousands of masks to people in Karachi.
- Clubs in District 3700 (Korea) have donated \$155,000 to the Red Cross.
- Rotary clubs in Nigeria's Akwa Ibom state conducted a campaign to raise awareness about the threat of the virus. Members shared information about the illness and how to keep safe at two schools and distributed materials about using good hygiene to stay healthy.
- The Rotary club of Metro Bethesda, Maryland, USA, is contacting neighbors who live alone and are quarantined. Volunteers are asked to contact at least five of those people each week to ask how they are and if they need anything. Members are also leaving flowers on their doorsteps.

#### Using technology to address the crisis

- Although clubs and districts are canceling or postponing their in-person meetings and events, they are still finding ways to keep up their fellowship, reimagine their service efforts and respond to the pandemic:
- The Rotary E-Club of Fenice del Tronto invited the public to its 11 March online meeting to raise awareness about the coronavirus. A virologist spoke about the virus, how it spreads, and how to keep safe.
- The Rotary Club of Singapore hosted a webinar in which an epidemiologist and an infectious disease expert addressed questions and concerns about the coronavirus and the pandemic.
- The Rotary Club of East Jefferson County, Washington, USA, used crowdsourcing to create an online listing of area grocery stores, pharmacies, and restaurants that offer home delivery.
- Rotary members in Hereford, England, created a Facebook group for Rotary members and others to use to link people who need support with people or organizations that can help. More than 6,900 people have joined the group since it was started 14 March.
- Two days before its annual fundraiser, the Rotary Club of Schaumburg-Hoffman Estates, Illinois, USA, moved the event to Facebook. It auctioned more than 100 items and raised more than \$100,000, about the same amount as in previous years. Food set to feed 350 people at the event was delivered to those in need.
- The Rotary E-Club of Silicon Valley, California, USA, held an online meeting for members of other clubs to share advice on using digital tools to remain connected. The club recorded the meeting so members could watch it later and share it with others.
- Rotary clubs in Zone 34 (Georgia and Florida, USA, and the Caribbean) created a guide to help members stay connected online. The Rotary E-Club of the Caribbean 7020 is helping clubs in the zone arrange online meetings.

## **PROTECTING MOTHERS AND CHILDREN**

### **Rotary International President**

I spend a lot of time thinking of family, not just my own or the extended family of Rotary, but also the families we are helping in the communities we serve. In many parts of the world, mothers and children face challenges to survive that most of us will never comprehend. According to the World Health Organization, the risk of a woman in a low-income country dying during pregnancy or childbirth, or from related causes, is about 120 times higher than that of a woman living in a high-income country. It is encouraging that infant mortality rates are declining globally, yet 4 million babies annually still die within the first year of life.

In April, Rotary turns its attention to maternal and child health. And when we think of what we can do to help, we can look to clubs like the Rotaract Club of Calabar South-CB, Nigeria, for inspiration. It teamed up with the Rotaract Club of Canaan City (CB) in a program focused on educating mothers on best practices to prevent infant mortality and promote postnatal health for themselves and their babies. In Bangladesh, the Rotary Club of Dhaka North provides free surgeries and medicine to pregnant women who cannot afford the hospital costs associated with giving birth. I encourage you and your club to go to ideas.rotary. org to find projects like these that are helping to save mothers and children.

We also have witnessed how millions of people — families and entire communities — have been ripped away from their homes because of conflict, poverty, and disasters during the past decade. But Rotary has not stood idly by during the global refugee crisis.

During Rotary Day at the United Nations last November, we honored a Rotary Peace Fellow and five Rotarians who are taking action to help refugee communities. Among them was Ilge Karancak-Splane of the Rotary Club of Monterey Cannery Row, California. After visiting several tent camps in Turkey, she led a Rotary project that collected 1,000 pairs of children's shoes and socks for families in the camps and, later, led a global grant project to help educate refugee children. In March, Gay and I had the privilege of visiting a tent camp in Torbali and seeing firsthand the good work that Rotarians from Turkey and California were accomplishing with Syrian refugees.

The challenges faced by mothers, their children, and refugee communities around the world are daunting. But when we remember our greatest strength — how Rotary Connects the World — we can begin to find solutions. Through our creativity, our resources, our dedication, and our networks, Rotary can and will open opportunities to face these challenges.

Mark Maloney,

I,

Rotary International President, 2019-20

## **MOTIVATIONAL QUOTE**

## "Nobody wants to plant the corn"

By Webster Edwards

We have to sow before we can reasonably expect to reap. That's one of the fundamental principles of life. And we should never ever expect to reap where we have not sown.

The Reggae singer Anthony B puts it in incisive graphic terms in his lyrics.

"Nobody wants to plant the corn,

### Everyone wants to raid the barn."

But there is an even more profound meaning, as we cannot escape the consequences of whatever is sown.

Yes, life can be beautiful, but this creation of beauty is firmly rooted within our hands.

And as it is in our personal lives, so it is in the building of a nation. The future is determined by a people's ingenuity, hard word and passion.
