Rotary's second virtual convention highlights accomplishment in polio, progress toward ending COVID-19

by Ryan Hyland

Thousands of people experienced friendship and fun at Rotary International's second straight virtual convention. The event, held 12-16 June 2021, was conducted online after the convention originally planned for Taipei, Taiwan, was cancelled because of the COVID-19 pandemic.

More than 11,000 people registered for the robust program that included more than 20 guest speakers, informational and inspiring breakout sessions, the interactive House of Friendship, and a variety of engaging virtual activities and entertainment.

During the opening general session, Rotary International President Holger Knaack acknowledged that he was worried about how successful his presidency would be, since he couldn't visit clubs and projects and provide encouragement and support due to travel restrictions. "But what seemed like a problem turned out to be an advantage," he said. "By visiting clubs online, I could be everywhere, every day."

Knaack talked about how rewarding it was to be able to visit clubs and districts around the world in just one day. "In a virtual environment, I could visit a dozen Rotary clubs a week and participate in their projects. It was exciting and rewarding. And I was so proud of the work you did in such difficult times," he said.

"The pandemic continues to bring great devastation and, for far too many, a very sad ending for people important to us," Knaack said. "We must continue to honor those who have passed and do whatever we can to bring this devastation to an end as soon as possible."

Despite the challenges of the past year, Knaack also highlighted successes, including the historic announcement that the World Health Organization's African region had been declared free of the wild poliovirus. He encouraged Rotary to build on that positive news by staying focused on our commitment to ending polio worldwide. Until early May of this year, he said, just two cases of wild poliovirus were reported worldwide. Wild poliovirus is still circulating in only two countries: Afghanistan and Pakistan.

WHO Director-General Dr. Tedros Adhanom Ghebreyesus gave a video address to online attendees, crediting Rotary for continuing to focus on polio. "When COVID-19 struck, you didn't abandon your vision of a polio-free world," he said. "You redoubled your efforts."

"The pandemic has highlighted that unprepared and underserved communities anywhere are a threat to health everywhere. Rotarians know this," Tedros added. "And I want you to know that your investment in public health will inspire future generations to live up to your motto of Service Above Self."

Rotary Cause Protecting the environment

Rotary shares an interest in protecting our common legacy: the environment.

We are committed to supporting activities that strengthen the conservation and protection of natural resources, advance ecological sustainability, and foster harmony between communities and the environment. We empower communities to access grants and other resources, embrace local solutions, and spur innovation in an effort to address the causes and reduce the effects of climate change and environmental degradation.

HOW ROTARY MAKES HELP HAPPEN

Rotary members are tackling environmental issues the way they always do: coming up with projects, using their connections to change policy and planning for the future.

HOW ROTARY WILL HELP PROTECT OUR PLANET

The Rotary Foundation will enable our members and their community allies

to take action in these ways:

- Protecting and restoring land, coastal, marine, and freshwater resources
- Enhancing the capacity of communities to support natural resource management and conservation
- Supporting sustainable agriculture, fishing, and aquaculture practices
- Addressing the cause of climate change by reducing the emission of greenhouse gases
- Strengthening ecosystems and communities affected by climate change
- Supporting education initiatives that promote behavior that protects the environment
- Advocating for sustainable consumption to build an economy that uses resources more efficiently
- Addressing environmental justice issues and public health concerns

18.4 million in Foundation global grant funding has been allocated to environment-related causes in the past five years through our support of community economic development and water, sanitation, and hygiene projects.

Philippines Rotary clubs 'adopt' vaccination site

By Carlito "Tolitz" Villanueva, Rotary Club of Baguio Summer Capitol, Philippines

We heal as one. Our communities were brought to a standstill by the COVID-19 pandemic. But now that vaccine is becoming available in the Philippines, we are slowly regaining our strength, confidence, and mobility to carry on our daily tasks.

Rotary members from nine clubs in our city partnered with the Baguio City Health Services to participate in the "Adopt a Vaccination Site" program, which encourages civic groups to provide the necessary support for these centers to keep the vaccination campaign running smoothly.

Rotary members assist at the University of Baguio City Gym.

Different clubs in our district were on a rotation basis to provide at least 5-7 members a day for eight-hour shifts. The members provided crowd control and assisted health workers in administering the vaccine.

Most of the time, the volunteers monitored recipients for any possible adverse reactions to the vaccine during the 15-minute observation period after receiving their dose. Each member received instructions on what to look for in potential side effects. A few members who were physicians also assisted in checking in with individuals post-vaccination.

Our nine club presidents were able to raise nearly \$2,000 to purchase vests for frontline health workers, and signs and tarpaulins for the vaccination site located at the University of Baguio Gym, one of two in the city. The clubs that helped raise funds included Baguio Summer Capital, Baguio, Baguio Highlands, Baguio North, Baguio South, Baguio Sunrise, Baguio Downtown Session, La Trinidad, and Metro Baguio.

Our region's department of health has reported that 8,092 healthcare workers (first priority recipients) have been vaccinated since the campaign began in Baguio City in March.

The "Adopt a Vaccination Site" program will continue through October and we will continue our support while the campaign is ongoing. It has been an incredible experience to be able to help our community in this fashion during the pandemic. It has indeed been Service Above Self.

Rotary's second virtual convention highlights accomplishment in polio, progress toward ending COVID-19 cont'd from p9.

Dr. Seth Berkley, CEO of Gavi, the Vaccine Alliance, gave an update on COVID-19 vaccines and spoke about the importance of restoring access to routine vaccinations that were disrupted by the pandemic.

Berkley said 14 COVID-19 vaccines have been approved around the world and more than 1.4 billion people have been vaccinated in the "largest and most complex vaccine development deployment in history." Gavi is co-leading COVAX, a worldwide initiative aimed at establishing equitable access to COVID-19 vaccines. By the beginning of next year, Berkley said, more than 1.8 billion doses of the vaccine should be available to people living in the 92 lowest-income countries that otherwise would have limited or no access to the vaccine.

But COVID-19 vaccines aren't the end of the story.

"Now with COVID-19 vaccines flowing, it's going to be critical to maintain hard-won gains in immunization," Berkley said, "to recover from the disruptions caused by COVID-19 and achieve even more by leaving no one behind in any situation or at any stage of life."

He added, "As a valued partner of Gavi, Rotary International will play a key role in all this."

😊 MOTIVATIONAL QUOTE 😊

Avoiding negative persons

by Webster Edwards

There are persons who consistently complain and for whom nothing ever seems to be going right.

They are natural pessimists who can never see possibilities emerging from any situation.

They assail you with such negativity that after any interaction, you feel mentally exhausted.

The danger is that such negativity can always be transferred from one person to the other.

But positive influences can also be transferred and internalized.

Where possible, avoid persons with negative influences that seek to overpower and ultimately condition your thoughts.

Avoiding such influences can result in innumerable benefits to your health.

4. Avoid behavior that reflects adversely on Rotary and other Rotarians.
