

# RCDM Morning FUEL (Focus, Unite, Engage, Learn)

## Purpose:

To offer a platform with a focused effort for bringing together Rotarians to get to know each other better and learn from each other.

## Why are we doing this?

There are Rotarians in our club that have done/or currently doing awesome things. Our survey confirmed we need more opportunities to get to know each other better, and offer more opportunities to network and build relationships across all members besides seeing them on Thursdays. It will also be nice to gather in a less formal setting.

We will evaluate after two months and consider changes, try something completely different or continue as is.

## Who is this for?

Any Rotarian looking for another great opportunity to better get to know other Rotarians, plus learn more about and from a successful leader in our Club.

## What does this look like?

- 9:00-9:15 casual conversations amongst attendees
- 9:15-9:30 presentation from the Featured Rotarian where they will share their story...where they came from and how they got to where they are today. They also can share their learnings from career and personal successes.
- 9:30-9:50 Q & A and open discussion with group and Featured Rotarian
- 9:50 – On- Opportunity for further conversations with between attendees
