#### About Donna & Charlie Honold

Donna has over twenty years of experience in education and training. She is a Performance Consultant and was Honold & Associates for 16 years.

Charlie has many years of creative experience. He owned Oh Frenzy! Advertising in Davenport for 17 years producing tv and radio commercials, billboards, logos, print and much more.

In 2011, Charlie and Donna incorporated their two businesses into one known as Rifle, sharing office space in downtown Davenport.

Charlie and Donna could not be more different. But, after 22 years of marriage, they make it work, yet sometimes still wonder how.

## **Rotary Polio Plus Response**

*By Bob Scott, chair of Rotary's International PolioPlus Committee*

Polio was recently confirmed in Syria, a country that has been free of this disabling and potentially fatal disease since 1999. In response, health authorities in Syria and neighboring countries have launched urgent, large-scale, multi-country immunization campaigns to ensure that every child is reached with the polio vaccine.

Rotary and its partners in the [Global Polio Eradication Initiative](#) are working together with local health authorities to activate the outbreak response.

In the wake of [World Polio Day](#), these and other recent polio cases in previously polio-free countries serve as a stark reminder that as long as polio still exists, unimmunized children everywhere remain at risk.

Rotary members, as leaders from all continents, cultures and occupations, have been active throughout the region to raise awareness and build support in the fight to end polio.

### LAST WEEK

LAST MEETING – November 1, 2013 – Ron Lutovsky; Renewable Fuel Standards

Sixty members and guests attended on Friday to hear the good news from Patrick Olsen about the auction proceeds. November birthdays were celebrated. Guests present were Jeff Freitag, guest of Roger Amhof and Kerri Tompkins, guest of Patrick Olsen.

Steve Powell introduced Ron Lutovsky with Iowa Renewable Energy, Washington, Iowa. Steve is on the board there and knew that members would be interested in the biodiesel production from renewable resources. Waste products are made into biodiesel. A lot of feedstock is used, especially soybeans. The plant in Washington has the capacity of 36 million gallons annually and employs 27 people.

Bill Tubbs told about his trip on the Honor Flight as a chaperone on October 31. Fines were collected from the birthday boys sitting at the wrong table for \$10. Cake income was \$12.
