North Scott Rotary Serves

Glen Keppy with Natalie Milo

President Glen has chosen a project at Fillmore Elementary School as his special project. This is a first time PILOT project in the Davenport School District and is being watched with great hope for what it can do to help these students. **Natalie Milo** is heading up this project at Fillmore School. and was the speaker. She told the club about the Trauma/Safe Room that the club is furnishing as Glen's District Grant project. Natalie and other specialists work with the troubled children that attend Fillmore. Many suffer from physical, sexual and emotional abuse, neglect and/or

mental illness. Natalie says that when the brain is safe and happy, it can learn. Many times these kids come to school traumatized by their environment. Bullying, drugs, fights, you name it. They are not ready to engage in a meaningful school learning situation. But they are here, and must be handled! This room provides a safe, quiet location to unwind, and get help.

THIS FRIDAY AT THE STEEPLEGATE

MEET Chris Norton

On October 16, 2010, in Decorah, Iowa, Chris Norton was severely injured while making a tackle on a kickoff, fracturing his C3-C4 vertebrae. After being told he had a 3% chance of ever regaining movement below the neck, Chris has defied the odds every step of the way, demonstrating a faith and determination to overcome his circumstance that has inspired thousands.

The day after his injury, Chris awoke from surgery without any movement below his neck. He spent the following year in Rochester, MN, devoting his time to intense, daily therapy ses-

sions. Throughout his stay he met others with spinal cord injuries and neurological muscular disorders who were fighting the same kind of daily battle to regain mobility. The impact these remarkable individuals had on Chris stuck with him, so that when he returned to Luther College the next fall he felt inspired to launch the SCI CAN Foundation, with the mission of providing opportunities to individuals in need of a path to recovery.

Four years and countless hours of therapy later Chris continues on his way to recovery and the SCI CAN Foundation has flourished. Most recently Chris was able to stand unassisted for four minutes, but his journey is far from over. In order to realize his goal of walking across the stage on graduation day he has devoted the final semester leading up to his commencement ceremony to a full-time therapy program in Plymouth, Michigan. Throughout his journey Chris has never lost sight of the idea that with faith, hard work and determination anything is possible. The SCI CAN Foundation has expanded on this philosophy so that others are inspired to overcome adversity just as Chris has — one step at a time.

Of the things we THINK SAY or DO

1. Is it the TRUTH?
2. Is it FAIR to all concerned?
3. Will it build GOOD WILL and BETTER FRIENDSHIPS?
4. Will it be BENEFICIAL to all concerned?
