About polio eradication

When Rotary launched its polio immunization program, PolioPlus, in 1985, polio struck more than 1,000 children around

the world every day. Fewer than 400 new polio cases were confirmed in 2014 – primarily in Nigeria, Pakistan, and Afghanistan, the only countries where polio has never been stopped.

As the volunteer arm of the Global Polio Eradication Initiative, Rotary has contributed more than \$1.4 billion and countless hours of volunteer service to ending polio. Through 2018, every dollar Rotary commits to polio eradication will be matched two-to-one by the Bill & Melinda Gates Foundation, up to \$35 million a year. To date, more than 2.5 billion children have been immunized against the paralyzing and sometimes deadly poliovirus.

Visit rotary.org and endpolio.org for more about Rotary and its efforts to eradicate polio. Video and still images will be available in the [Rotary Media Center](#).
