### North Scott Rotary Junior Rotarians Fall 2016

We were very happy and proud to welcome our Junior Rotarians for this Fall. These students from the three high schools with whom we maintain a relationship, Davenport North, Davenport Assumption, and North Scott High School. The students attended four of our regular meetings, and participated in our festivities. Sometimes they were even fined, which was paid by our North Scott Superintendent and member, Joe Stutting. These students learned of the core values of Rotary, and the good works we do here and around the world. Not pictured, Drake Golinghorst, North Scott

#### JA of the Heartland

Junior Achievement is dedicated to educating students in grades kindergarten through high school about entrepreneurship, work readiness and financial literacy through experiential, hands-on programs.

Our programs help prepare young people for the real world by showing them how to generate wealth and effectively manage it, how to create jobs which make their communities more robust and how to apply entrepreneurial thinking to the

workplace. Students put these lessons into action and learn the value of contributing to their communities.

Continued page 2

JA's unique approach allows volunteers from the community to deliver our curriculum while sharing their experiences with students. Embodying the heart of JA, our classroom volunteers transform the key concepts of our lessons into a message that inspires and empowers students to believe in themselves, showing them they can make a difference in the world.

Junior Achievement is a global organization that was established in 1919. JA of the Heartland began serving the Quad Cities and surrounding communities in 1956. We have grown from serving 155 students in 1956 to more than 55,000 in 2015.

### **EcoSan Systems At GMOC in Kisoro Uganda**

Hi All NorScottarians

I bet this is the first time you ever received a photo from somebody that is excited to show you a photo of an outdoor toilet in Uganda!

I have attached a photo showing the front view. The toilet is a modern concept of an outdoor toilet that is recommended and promoted by Rotary in developing countries.

People will be trained in proper use as well as cleaning this toilet before it is put into use.

I have another photo showing a close-up of the back and the clean out system. It is shown on the right above.

**You will be interested to know the new village water tank has been built and filled with clean water. The next steps will be to build the risers and taps in various places in the village of 4,000. Then, it will require piping from the Water storage tank to each riser.**
