### March is Literacy Month in Rotary

For most of us, reading and writing are as natural as breathing. But nearly 800 million adults worldwide lack the literacy skills needed to complete a job application, understand a child's report card or read a prescription.

Rotary International and the International Reading Association know that literacy is an essential ingredient for reducing poverty, improving health, encouraging community and economic development and promoting peace. Since 2002, RI and the IRA have combined their resources and skills to advance literacy in communities worldwide.
