About the Old Ponquogue Bridge Marine Park ...

Recently designated as an official Town Park, the remnants of the "old bridge" have become a popular destination for locals and visitors to our area alike. The underwater portion of the structure is developing into a beautiful natural reef, making it a top dive site as well. We are working with the Town Dept. of Parks & Recreation and Cornell Cooperative Extension to develop interactive interpretative signage that will educate viewers on the site's history and the amazing wildlife habitat created by this new preserve.
