## Supporting STEM at the Science and Engineering Challenge

We are pleased to be supporting the Science and Engineering Challenge – a national STEM-based program run through the University of Newcastle. It will be held on **11th and 12th August** at Deakin University, Warrnambool Campus.

This exciting event challenges Year 9 and 10 students from up to eight local schools (including Good Shepherd) to put their problem-solving and teamwork skills to the test across eight hands-on activities. Locally, King's College, has proudly qualified for state and national finals for the past three years.

**Why Rotary's Look Matters**

Rotary updated its official look and colours in 2013 to create a fresh, professional, and consistent image worldwide. This helps all clubs, including ours, appear united and easily recognised by the community. The main colours in Rotary's palette are Rotary Royal Blue, symbolising trust and global unity, and Rotary Gold, representing service and optimism. Supporting colours like sky blue, lime green, orange, and grays add vibrancy and flexibility to our materials.

You'll see these colours and the official design used on everything from our logos, banners, and flyers to club shirts and social media posts. Using the same look everywhere helps build trust and shows we're part of a respected global organisation.
