December 1 2021 Meeting

From the President

Chairperson Bruce Wheeler introduced **President Brian Jenkins** who welcomed all to the meeting and advised that this year's Challenge Camp would be held on 21 April to the 24 July.

Acknowledged a thank you letter from Murray Menzel,

A big thankyou from Marg and Gerri for the volunteers who weeded the trees at the Wetlands. An hour's work did the trick, and it was pleasing to see that there has been a 95% plus success rate with the tube stock. The Shire has suggested that we erect a sign to promote Rotary Hamilton.

The raffle made \$90.30 and the prize of a bottle of wine, kindly donated by David Kennett, was won by Bruce Wheeler. Next week's prize is being donated by Gerard Lucas and the week after by Jenni Barke.

Some reminders:

- Please deliver items to Barrie for BackPacks4Kids by Monday afternoon (6/12/21)
- We need volunteers for the Harness Racing on 30 December.
- Board meeting next Wednesday at 4.00pm by ZOOM
- Please remember to enter partners for the Christmas dinner meeting on 15/12/21.

Christmas Dinner Social Night 15 December

Outrageous Christmas gear to be worn (including loud Hawaiian shirts). Prizes will be given
Partners and friends invited remember to book in online
All people bring a small gift to the value of \$10 max to exchange

Further details regarding time and cost will be provided later.

Brumley Park

We have successfully received a grant from Wannan Water. 'Water for Community' Sponsorship - 2021 Permanent drinking water station program. We will now be able to install a water station at the park

Our Rotary Heroes

Our Rotarians wear many hats

Congratulations to Simon Wilson who received a certificate for 50 Years' service to the CFA Simon is also the Airbase manager

Rose Howard was seen last week dressed in PPE manning the gate at the WDHS Covid Testing clinic. Rose is a regular volunteer at our hospital

Guest Speaker via Zoom

Noel Howard introduced **Jane Cox Director** at Australian Rotary Health (ARH) who is a member at Geelong Central Rotary Club.

ARH was established in 1981 by Ian Scott from Mornington with research focusing on mental health issues.

With the recent bush fires and Covid 19, children are now a major concern with symptoms not showing for many years.

Australian Rotary Health new District Chairperson Gitte Lindgaard who has been a researcher for many years was introduced by Jane who outlined some of the many problems being faced by mental health staff,

Many issues appear much later in life hence the need to act now to stop long term effects, ARH is not part of the Rotary International Organisation but is a registered charity with a focus on research, compared to Black Dog and Beyond Blue being more hands-on organisations.

Noel and Brian thanks Jane for her excellent presentation

Check out website for more information <https://australianrotaryhealth.org.au/>

Coming up for our club

- 8 December– Tony MacGillivray – Remote Education and Training
- 15 December – Christmas Dinner Social Night Wear Christmas or Brightly colored clothes (Hawaiian Shirt!)

December is Disease Prevention and Treatment Month

- **Defying the Drift – 13-15 December at Longeronong**

National Youth Science Forum (Heather Ward)

On Saturday November 20th I attended the Induction Day in Ballarat for this year's NYSF candidates. I was able to meet the student we are sponsoring from Wycheproof, Lilly Pritchard. She is really looking forward to NYSF and will talk to our club about her experiences on Wednesday. 13th April. I also met four students from Phoenix P - 12 School that we have aided financially they were very appreciative of the help.

This year due to COVID students will not travel to Canberra but will remain in their own states. The first week will be held virtually where the all students will convene on zoom and listen to experts in their field. The next seven days will consist of visits to all sorts of exciting places in Victoria. The program sounds really exciting.

It was a pleasure spending time with such motivated young people, and I look forward to hearing about the experience from Lilly next year.

The photo is of the chair of the committee Allan McKinnon, Lilly Pritchard and myself. Lilly asked for it to be taken to put in her school's newsletter.

December is Disease Prevention and Treatment Month

Rotary's top priority is the [eradication of polio](#), but our members take on far greater responsibilities to fight disease. They set up health camps and training facilities in undeveloped countries and in communities struggling with HIV/AIDS and malaria. They also design and build the infrastructure for doctors, nurses, governments, and partners to reach the one in six people in the world who can't afford to pay for healthcare.

[Browse Rotary Showcase](#) for member projects helping to fight disease

Family of Rotary – all our members and their families are important to us.

Almoners Rose Howard and Bruce Wheeler

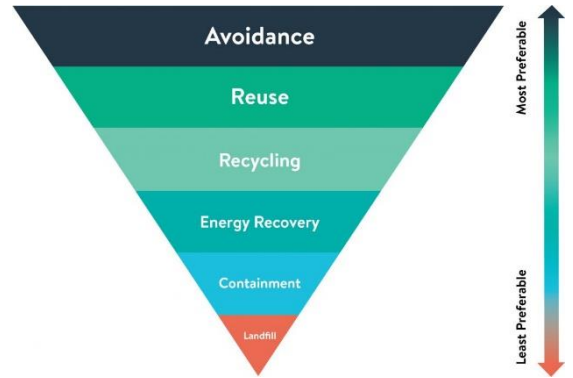

Birthdays	Anniversary	Inductions

The Waste Hierarchy

The word 'waste' is used to describe any substance, that is no longer useful.

The Waste Hierarchy recognises that the most effective way to manage waste is to avoid producing it wherever possible, and the least effective way is to place it in landfill. Between these two levels are a range of options including reuse, recycle, energy recovery and containment, in that order of preference.

<https://www.reduce-recycle.com.au/community/waste/>

Weekly Bulletin, Webpage and Facebook

The weekly bulletin will eventually be published through ClubRunner.

Our club webpage can be accessed on <http://portal.clubrunner.ca/1943> It is now live. This will allow stories from our bulletins to be published on the webpage and information from the District and RI webpages (which also use ClubRunner) to be shared. Our club also has a Facebook page which shares stories and events, and this page is also shared to other Facebook pages to get our message out.

Barwon South West
WHAT'S IN THE RECYCLING BIN?

84%
IS RECYCLABLE MATERIAL

16%
IS MATERIALS THAT CAN'T BE RECYCLED through this bin (CONTAMINATES)

(CONTAMINATES) are items that don't belong in the recycling bin and end up in landfill. Contamination increases the cost of recycling for households.

The main contaminants found in the recycling bins are:

- Bagged Materials
- Clothing & Textiles
- Food & Garden Organics
- Soft Plastics
