

The email address for the bulletin@rotaryhamilton.org.au

President Noel welcomed everyone to the meeting including medical students Lauren and Phil. It seems the wintery weather is keeping members away as there was only a small gathering tonight, Glen and Jo Howell are in UK/Scotland. Glen is climbing the “munros” and Heather Ward in Sweden and Scotland. Condolences to Simon Wilson on the passing of his father last week at the grand old age of 100.

Club Notes

Next week’s meeting is at the Pastoral Museum

Pride of Workmanship – Entries have closed. Presentation will be on 12 June

Domestic Violence update

Breakfast meeting 19 June specifically invite 30 community members. Club members may attend but will need to pay for their own breakfast.

Please let us know your intention of attending

Hamilton Kangaroos FNC interested in partnering and have set aside the Round 20th July at Dunkeld (TBC)

Our guests this week were Deakin Medical students Lauren Harvey and Phil Schulz. Both are completing their placements at our local hospital WDHS and are here until November.

Phil is a locally educated young man who took quite a convoluted route into medicine with stints on a dairy farm, cabinet making, sound production and theatre technician, finally completing a bio medical degree and now an undergraduate. Phil aspires to specialise in the orthopaedic area.

Lauren came from a medical focused family and started with a bio medical degree and worked in the disability sector and then into medicine. Lauren has an interest in acute care.

Both Lauren and Phil engaged in discussion with members on the current state of the health sector in our local region and the challenges that face regional and rural communities in attracting doctors long term.

May is Bowelscan Month

Rotary is no longer providing kits, but we have 16 left from last year Available from Gerri Griffin

National Bowel Cancer Screening Program

This program aims to reduce deaths from bowel cancer by detecting early signs of the disease. If found early, more than 90% of cases can be successfully treated. Eligible Australians aged 45 to 74 can do a free test at home every 2 years. Learn about the program and how to do the test.

May is celebrated as Youth Service Month by Rotary International, a time dedicated to recognising and supporting the pivotal role that young people play in our communities. This month, Rotarians around the world focus on empowering the next generation by providing opportunities, mentorship, and resources that foster leadership skills, personal development, and a commitment to community service.

Youth Service Month not only highlights the incredible potential of young individuals but also encourages them to engage in projects that make a lasting impact. As we celebrate this special month, let us commit to inspiring and guiding our youth to be proactive leaders and change-makers in their communities.
