The COVID-19 pandemic has up-ended the world.
Our \$15,000 goal this year supports COVID-19 relief locally and globally.
We are proud to partner with:

Alternatives Impact — AFCU small business COVID-19 relief fund to extend the Alternatives Federal Credit Union small business support to cover expenses associated with COVID-19, e.g., rent, PPE supplies, materials needed to redesign service/product delivery.

Family & Children's Services of Ithaca — outreach services to children and youth whose mental health and well-being have been affected by pandemic disruptions in family, school and community life.

Solar Power for Digital Learning, UNIFAT School, Gulu, Uganda — Solar power will provide reliable electricity to maximize student access to virtual educational resources, including curricula on COVID-19 at the new digital learning lab outfitted with a Rotary District grant.
