WORLD IMMUNIZATION WEEK
24-30 APRIL

Spread Awareness. Get Vaccinated. Save Lives.

Our work on polio eradication is proof that vaccines save lives. 3 billion children have been vaccinated against polio and the cases of polio have been reduced by 99.9% since 1988. But we know the job is not done until every child is vaccinated, and polio is stopped for good. Help us share the message that #VaccinesWork.
