RE: Meals on Wheels Schedule & Instructions

Always keep hot food hot and cold food cold:

It is very important to close insulated containers tightly during a route, and as soon as possible after removing a meal, so that meals can be held at safe temperatures.

KEEP HOT FOOD HOT / KEEP COLD FOOD COLD (keep in separate coolers until arrival of clients' residence)

*If you transfer the meals into your own coolers make sure you have one cooler for hot meals and a second cooler for the cold meals

Thank you for making a Difference!
