## Interact Clubs To make WAPIs

The Water Pasteurization Indicator (WAPI) is an open-source hand-made thermometer that indicates when water has reached pasteurization temperature and is safe to drink. Rather than waiting for water to boil (which occurs at 100 °C and is far beyond the required temperature for destroying microorganisms), a WAPI uses a melting wax to indicate that water has reached 65 °C (150 °F). This saves fuel by eliminating the need to boil water to ensure that the pasteurization temperature has been reached.

The Interact clubs of District 5180 will be assembling these devices for distribution to other countries with clean water challenges. They meet from 10AM to 2 PM on 3/26/22 at Folsom High School. Contact **Don Rodes**, donrodes@icloud.com, for details.

**Walter Helm** is planning on taking these devices to Peru later this year. Let's support Interact students and help this project be successful.

Make it a full Rotary day and come to the PWR Bowling Bash after this event. Bowl-ing is at Country Club Lanes on 3/26/22. This event will replace the Friday 3/25 club AM meeting at DLCC. Contact **Drew Houghton** to reserve your spot.

## Partners in Leadership

The 9th Annual Partners in Leadership took place this day at the Dante Club. 30 students from Encina High School attended this event where they were paired up with 30 adult mentors. These pairs came together to learn some of the aspects of leadership, values and ethics. The program is led by **Larry Challis** with organizational help by **Sandy Thompson**. The students arrive not knowing what to expect but leave with new found confidence and thinking about what they had learned. It was a superb program again this year making a profound impact on the young students lives.
