APRIL IS MATERNAL AND CHILD HEALTH MONTH

At least 7 million children under the age of five die each year due to malnutrition, poor health care, and inadequate sanitation. To help reduce this rate, Rotary International provide immunizations and antibiotics to babies, improve access to essential medical services, and support trained health care providers for mothers and their children. Their projects ensure sustainability by empowering the local community to take ownership of health care training programs.

Today's Speaker:

Cory Procter

Cory has had to figure life out along the way, and football provided the path that would shape the man he is today. And it is now his mission to spread his story, his strength, and his wisdom to impact people and develop leaders. Cory's story is a powerful one; one of triumph, of tragedy, and ultimately of being reborn into a man more resilient than even he could ever have dreamed. When he connects with others, he empowers them with his strength and convictions, his story and his passions. Cory's own tragedies and pain embolden those he encounters to face their own challenges and become warriors in their own lives.
