New RI President

*On 1 July, Rotary began its new year, ushering in new leaders and a new RI theme. Rotarians have already welcomed RI President John Kenny and shown enthusiastic support for the 2009-10 theme, *The Future of Rotary Is in Your Hands*. Check out a few tools that can help you start the new Rotary year.*

I'm honored to be representing you for the next 12 months. You are the future of Rotary and a hope for a better world. Truly, as my theme says, *The Future of Rotary Is in Your Hands*. I'm looking forward to seeing many projects and meeting many Rotarians as I make my visits during my presidential year.

Rotary was founded on a clear idea that if people of good character, intelligence, and morals joined together, they could achieve a great deal more than they could alone. I have seen this every time I visit a Rotary club or an amazing project.

Even as president-elect, Rotarians welcomed me into their clubs and shared with me the work they were doing to make the world a better place. As an example, I was moved when I was in Pune, India, when a girl who is visually impaired read me her Interact club's charter in Braille -- the first, I believe, ever presented to an Interact club. Also in India, I admired the work of Rotarians in helping to [eradicate polio](#) during a National Immunization Day.

And, as did thousands of Rotarians, I especially enjoyed going to the RI Convention in June in Birmingham, England. I met so many enthusiastic and dedicated Rotarians, [Rotaractors](#), [Rotary World Peace Fellows](#), and other members from the family of Rotary. I was impressed by the range of projects in the House of Friendship as well as the wide variety of breakout sessions, which covered topics from fundraising ideas to membership retention. And with speakers such as Mia Farrow and Jane Goodall, the plenary sessions were not to be missed. If you were not able to attend the 2009 convention, see the coverage of it at www.rotary.org. Also, consider registering for [the next convention](#) in Montréal, Québec, Canada, when we will celebrate 100 years of Rotary in that country.

At a Rotary convention, you experience Rotary's strength. By meeting people from clubs around the world, you'll see how our clubs work together. Yes, they work through their own districts, in cooperation with other clubs and districts, and with the support of our Rotary Foundation, but at the end of the day, everything that we accomplish is done through the strength of our clubs.

As I visit Rotary clubs worldwide, read my upcoming travelogues to learn about some of the Rotarians and projects I'll have the honor to visit as your RI president. Also, browse through my [president's pages](#) to read my biography, sign my guest book, learn about my resource groups and committees, and read messages from me.

Chicago youth have a new place to play!

After decades without a playground, St. Elizabeth Elementary School in Chicago was recently outfitted with swings, slides, tunnels, and

other modern play equipment. The Rotary Club of Chicago-Near organized the transfer and installation of surplus equipment donated by a park district in nearby Naperville. The club, which meets near the school, raised \$15,000 to fund the restoration and preparation of the site, as well as the installation of the playground.

"Because of Rotary's generosity, our students have the opportunity to play and enjoy themselves on a playground they can call their own," says Danielle Harris, St. Elizabeth's principal. "I cannot begin to express our appreciation."

On 3 June, almost a year after the project began, Rotarians, students, teachers, and parishioners gathered to dedicate the new playground. Afterwards, students climbed up the ladders, glided down the slides, and swung on the monkey bars.

Rotarians and family members from 12 clubs in District 6450 gathered at the school for 10 Saturdays over the course of the year to clean the site, rebuild and paint the fence, and install and paint the playground equipment.

"This is a project that is really a labor of love," says David Baker, the project leader and a member of the Chicago-Near South club. "It's our first physical project where Rotarians actually came out and worked with people from the school to build this playground."

Founded in the late 1800s, the school is located in a poor neighborhood on the south side of Chicago. Baker says the new playground, which replaces an expanse of asphalt and rusty swings, is a symbol of the neighborhood's resurgence.
