International
NEWS**

Polio is in its final days!

The disease that once paralyzed hundreds of kids a year around the globe is now down to just a few dozen cases a year. "We are aiming to halt all transmission of the wild polio virus next year," says Peter Crowley, the head of UNICEF's global efforts against polio.

If polio is stopped, it will be only the second human disease to be eliminated. Smallpox was the first, the last case was in 1977.

Kathy's Korner

A good time was had by all at the Reverse Raffle! 10 Big Winners, which means the last 10 standing split the pot. A few snafus but we managed to get past them. Next year we will develop a 'procedure manual' that will help all committees know exactly what their responsibilities are. Also, we are talking about having a better check system on pulling numbers and recording same.

Again I thank all my worker bees that helped out at the event. We looked great with our new "Rotarian at Work" shirts. If you haven't paid Jason yet, please bring your \$14 on Thursday. Jason will be putting in another order for shirts soon.

Don't forget our board meeting has been moved to November 12 at 11AM. Our District Governor Rodney will be attending both the board meeting and the general meeting at noon. Remember all members are welcome to attend the board meeting. Your attendance at a board meeting counts as a makeup. Let's all work toward perfect attendance this year.

Don't hesitate to talk us up to your friends! Be a "Gift to the World". Share your enthusiasm about the great work we do for our community.

Warm Coats is underway right now. Good luck in November. Have a great Thanksgiving.

Kathy Volpe

President
Rotary Club of Lombard

November 2015
