

FAMILY HEALTH PARTNERSHIP CLINIC

2016 ANNUAL REPORT

*"At the Clinic, I feel happy that I can
count on them."*

— Sammy G., Harvard

PARTNER

THE MENTAL HEALTH RESOURCE LEAGUE FOR MCHENRY COUNTY – Woodstock – was founded in 1967 as an auxiliary to the McHenry Mental Health Center. MHRL broadened its scope in 1967 to give financial aid to mental health-related agencies in McHenry County. The all-volunteer league has a membership of over 100 men and women who raise funds through its signature Fair Diddle and Fall Diddle events to help our community mental health agencies. Eighteen McHenry County agencies received grants at the League's last meeting and the Clinic was granted \$12,000.00 for nursing time for our patients with mental health diagnoses. MHRL has donated \$87,252 to the Clinic since 2006. Since its inception, MHRL has awarded over \$5.3 million to various agencies. We thank the current and past volunteers who work so hard on behalf of local agencies and local people in need.

OUR VOLUNTEERS

Our volunteer providers are in the clinic at least monthly. We appreciate their hard work and commitment to the underserved.

IN HIS MOTHER'S MEMORY: A SON'S GIFT

Tracy Beyer always put others before herself as mother of four children and working full time as Office Coordinator for the Crystal Lake Fire Department. With no history of breast cancer and a clean bill of health, Tracy and her family were in disbelief when she was diagnosed with stage 2B triple negative cancer in October 2009.

She endured chemotherapy, a double mastectomy, radiation therapy and full breast reconstruction with grace, humor and endless hope. Not only did she continue to work full-time, she also attended school part-time. In June 2010, she celebrated her 50th birthday and her graduation from Benedictine University. With her health back, she began training to run a 5K.

Pain in her lower back in May of 2011 led to a barrage of tests. Cancer was discovered in the lining of her brain and her spinal cord. The family knew they needed to bring Tracy home and make her as comfortable as possible.

She was released from the hospital on her 51st birthday and passed away just five days later. Since then, her family has continued to raise funds for research, screening services and for other breast cancer patients in need of treatment. They have donated over \$15,000 to date to various organizations. Most recently, her son, Mike Beyer designed awareness t-shirts and sold them to raise money for the breast cancer fund at the Clinic. "She was our rock until the very end and a constant source of hope. We try to keep her legacy alive by sharing her story and giving back to others who continue to fight this devastating disease."

Tracy & Mike Beyer – Wonder Lake

TURNKEY DIGITAL

PARTNER

TURNKEY DIGITAL – Woodstock – Small business owner, Rob McClurg, has been involved with the Clinic since 2014. At that time, he was approached by staff member Cathy Patenaude and asked to videotape our Care4 Breast Cancer 5K using drone capability. Rob generously agreed to offer his staff's talent at no cost to the Clinic. For the past two years, Turnkey Digital has produced phenomenal coverage of our event. We are able to use it for promoting our 5K and we enjoy people's enthusiastic reactions. Rob also has donated items for our gala auctions and his staff created a fantastic new Clinic website. He offers support on our website maintenance, free of charge. Thank you to Rob and his team for being true friends to the Clinic, its staff and patients!

Austreberta, 42, had never had a mammogram before she came to our Celebremos La Vida cancer screening program. She had been putting it off because she could not afford it, but after hearing about this free service at the Clinic, she quickly signed up. But when the screening mammogram came back with some areas of concern, additional views were taken immediately and indicated that she needed a biopsy. With our Health Educator walking with her through this journey of fear and anxiety, she had the biopsy. The results were negative for cancer and she was relieved and thankful .

"This is why these programs are needed throughout our communities: to help overcome barriers to getting these services, and to give people hope and peace in their lives."

– Austreberta P - McHenry

PARTNER

KEITH & ARLENE LYNES - from Woodstock have been steadfast, generous donors and supporters since 2005. Every year, Arlene promotes the Clinic's gala and Care4 Breast Cancer 5K in her bookstore, Read Between the Lynes. They raised over \$2,000.00 with a promotion of the Harry Potter #7 book. In 2014, she and Keith hosted a "popup" store, Glassybaby, and space where customers could purchase candle holders (with proceeds going to the Clinic). Together, they raised just over \$1,000.00 for clinic services. In addition to promoting and partnering, they educate people on what the Clinic does and the issue of the uninsured in our community. Several friends have joined the Clinic family of supporters because Arlene and Keith introduced them to our mission. We thank them both for their strong involvement, attendance at our fundraising events and the many, many gala donation items over the years!

"The Clinic is a blessing."

– Maria, McHenry

FAMILY HEALTH
PARTNERSHIP CLINIC

Jennifer has been unemployed with no insurance since June 2015. She recently became an independent distributor with a small company, but still does not have health insurance for herself or her daughter.

A few months ago, Jennifer became sick but didn't want to go to the doctor because of the cost. Her friend told her about the clinic and how we work with people who are uninsured. She scheduled an appointment. "The doctors and nurses were wonderful with me and did everything they could to keep my cost to a bare minimum. What would have normally cost me hundreds of dollars cost me less than \$40, but the care I was given was top dollar. This facility is a wonderful place to receive care and compassion. Phone calls are promptly returned and appointments are made as quickly as the schedule allows."

Jennifer felt better quickly after beginning her medications which allowed her to return to work. "Thank you to the doctors, nurses, and volunteer staff that keep this clinic going! I look forward to helping as much as I possibly can!"

– Jennifer M., McHenry

life-saver

"You all are a life-saver. Everyone was absolutely wonderful and I was amazed at how much assistance I received."

– Susan, Cary

FOUNDATIONS

Because the Clinic does not rely on government funding for its operations, we appreciate the tremendous community support we receive. We also appreciate the businesses and organizations that have partnered with us to help deliver services to those who would otherwise go without. Some of our community partners who have provided funding, services or in-kind contributions from the period **June 30, 2015 – July 1, 2016** include:

AbbVie Foundation*
 Alfred Bersted Foundation*
 AmeriCares*
 Aptargroup Foundation*
 Arnold Gold Foundation
 Bank of American Matching*
 Baxter International*

INITIATIVES YOU MADE POSSIBLE THIS YEAR

CareMessage

Patients with diabetes and hypertension are educated through short texts 2-3 times/week, helping them stay on track for their health!

Diabetic Group Visits

More than a support group, this innovative program combines education, lab testing and a provider visit for 12 people at once every month for 6 months!

Lowered "no show" rates

Patients get two automatic reminders texted to them, reducing the no show rate by 37%!

Medical—Legal Clinic

In partnership with Prairie State Legal Services, patients have direct access to lawyers and paralegals to help get issues resolved.

Mission

The Family Health Partnership Clinic will improve the health status of the community and reduce the negative economic impact of poor access to care by providing a broad spectrum of services to the underserved with compassion and respect. We recognize that as a community, we are responsible for each other.
