Snacks included if you register at <http://tinyurl.com/hs6cmma> before 3/8.

The Imam and the Pastor captures former members of competing militias in Nigeria who experienced personal transformations through their friendship and now work cooperatively. This documentary shows building relationships between Muslim and Christian clergy and leading training in conflict prevention, mediation, and reconciliation.

Uplifting Down: Nigeria

Life, liberty and equality are human rights that are not necessarily afforded Nigerians with special needs. *Uplifting Down:Nigeria* tells the story of how a mother with a big heart started a small school to make a difference. She became the founder and chief advocate for Down Syndrome Foundation Nigeria.

Join filmmaker Steve Gatlin for a post film discussion.
