Program Speaker: Leslye D. Langla, Public Affairs Director of ASAP, Alaska's In-State Gas Pipeline

In 2010 the Alaska Legislature formed the Alaska Gasline Development Corporation to determine the cost, schedule, route and tariffs for the Alaska Stand Alone Pipeline (ASAP). This mega-project, a 737-mile natural gas pipeline, is being designed to deliver natural gas from Prudhoe Bay to Fairbanks, Southcentral and other Alaska communities along the route, where practical.

Some of the many key highlights and facts regarding ASAP are as follows:

- ~Designed to deliver first gas in 2019
- ~Will deliver "lean gas" for consumer use in areas where the pipeline can be connected to a distribution network
- ~Cost to Alaskans is \$400 million
- ~Benefit is a long-term energy supply for electricity generation, home heating and economic development
- ~A 737-mile, in-state, buried, 1,480-psi maximum pressure pipeline
- ~Will operate from Prudhoe Bay to Point MacKenzie
- ~Planned delivery of up to 500 million standard cubic feet of natural gas per day

The ASAP team wants to hear your input. For more information visit www.agdc.us or call 907-330-6300 or Toll Free: 855-277-4491
