## ROTARY INTERNATIONAL NEWS: ROTARY'S INNOVATIVE TRIBUTE TO POLIO ERADICATION IN INDIA BREAKS GUINNESS WORLD RECORD

To eradicate polio in India, Rotary members displayed impressive coordination and commitment. So it should come as no surprise that Rotary members in Chennai, Tamil Nadu, were able to mobilize more than 40,000 people to create the world's largest human national flag. The tribute to the polio eradication effort qualified as a Guinness World Records-breaking achievement.

## ROTARIAN MAGAZINE: MINNESOTA ROTARIANS SEND STUDENTS PACKING

For several years, Jacob Lundell had been thinking about going abroad. His family had hosted two Rotary Youth Exchange students, one from France and one from Denmark. And at Northfield High School in Minnesota, everyone knew about Youth Exchange: In 2013-14, the school sent 19 students abroad and hosted four, from Brazil, Chile, Japan, and Korea.

Yet it wasn't until the school's annual informational session in September of his junior year, as he listened to returned exchange students telling their stories, that Lundell made up his mind. He filled out his application, got accepted, and spent his senior year at a bilingual high school in the Croatian capital of Zagreb.

"Rotary was so popular at our school," Lundell says. After graduation, "people assumed you were either going to college or going to do Youth Exchange."

Many Northfield students participate in Youth Exchange as a "gap year" between high school and college. That's what Carly Davidson did in 2010 when she left Minnesota for Brazil. Before she graduated, she had been thinking about it for some time. "Every year, so many students apply," she says. "We all know the kids who are going to do a year. Everyone reads their blogs. And seeing all the adventures they were having, and hearing about how great their time was, and how challenging it was, made it appealing."
